

ACKNOWLEDGEMENT

I pay my deepest sense of gratitude to my respected Guru Dr. S. Ganapathi for his supervision and guidance in the present work. I am indebted to him for the love, affection, help and unstinted support that I received from him throughout the course of the investigation - right from conceptualisation to the final stage. It was a privilege to work under him and receive his critical suggestions and advice which shaped the outcome of the present study.

I am thankful to Prof. M.P. Patel, Head, Department of Geology for providing departmental facilities.

I express my sincere thanks to Prof. S.J. Desai for motivation and affection, I got from him.

I owe my regards and a special sense of gratitude to Prof. Nikhil Desai for the encouragement and inspiration he bestowed on me throughout the study.

I acknowledge, with special thanks, the help extended by Dr. P. P. Patel and Dr. K.C. Tiwari through various invaluable informative discussions and in providing access to useful literature. I also thank Dr. Kanchan Patel, G.E.R.I., for the help extended in carrying out studies on Satellite Imagery.

I express my sincere gratitude to Prof. N.M. Bhatt, Dept. of Environment, Faculty of Technology and Engineering for permitting me to work in his lab. I thank Ms. Tarla Desai and Ms. Sangeeta for their help in estimation of various parameters.

My heartfelt thanks go to Prof M.Shreehari and Mr. Kalamkar, Statistics Department, for their help in carrying out the statistical analysis and to Prof Animesh Rakshit and Dr. Ram Sharma, Chemistry Dept., for helping me in estimation of conductivity of water samples.

I will be forever grateful to Mr. Veluchamy (O.N.G.C.) for paying personal attention in carrying out trace element analysis.

I would like to express my deep sense of gratitude to Dr. Pinaki Majumdar, my intimate friend and colleague, for the immense, invaluable and indefatigable help rendered, right from inception to the final stage of this thesis.

I thank Mr. Ramakrishnan for the timely help, provided particularly during the final stages of the research work.

I acknowledge various Govt. Organisations, G.E.R.I.; G.W.R.D.C.; G.W.S.S.B.; D.G.M. and their personnel for their liberal help in providing secondary data and literature.

I fondly cherish the memories of close companionship and words of encouragement from my teachers- cum - friends Dr Atul Joshi and Dr. Manoj Limaye during those hectic days. I thank all my teachers, fellow research colleagues and departmental staff for the help they rendered in various capacities during the course of this research.

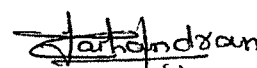

Mr. Arvind Dave deserves special thanks for his services during the field work.

Part of this research was done when I was working as a J.R.F. in the Minor Research Project sponsored by M.S. University, for that I am thankful to the University.

I gratefully acknowledge the painstaking effort put on by Mr. Anthony Christian and Mr. Walter Solanki in doing an excellent word-processing of this thesis with care and sincerity.

It is difficult to express in words the support and care I received from my loving sister Jayalatha during those frantic days of my research period.

My academic career would not have reached this stage without the support and blessings of my beloved parents. I dedicate this thesis to them

Jayachandran Nair
