

## C O N T E N T S

Chapter No.	Page No.
<b>I. INTRODUCTION</b>	<b>1-18</b>
General	1
Location & extent	2
Physiography & drainage	5
Climate	6
Reservoirs	10
Vegetation	10
Fauna	14
Communication & transport	16
Purpose & scope of investigation	16
<b>II. PREVIOUS WORK</b>	<b>19-49</b>
Geological studies	19
Ecological studies	48
<b>III. GEOLOGICAL SETTING</b>	<b>50-142</b>
Regional Geology of Saurashtra	50
Mesozoic rocks (50), The Deccan Trap (54), The lateritic rocks (55), Tertiary rocks (55), Quaternary rocks (57), Recent deposits (58).	
Tectonic framework	59
Structural history	60
Neotectonism	63

<b>Geological setting of the study area</b>	<b>67</b>
General geology (70), Deccan Trap lava flows (70), Miliolitic limestone (74). Soil & alluvium (75).	
<b>Segment-I</b>	<b>75</b>
Geology (77), Flow-I (78), Flow-II (84), Flow-III (87), Intrusives (88), Miliolitic limestone (97), Soil & alluvium (98), Structure (99).	
<b>Segment-II</b>	<b>103</b>
<b>Segment-II A</b>	<b>103</b>
Geology (104), Flow-I (108), Flow-II (109), Intrusives (110), Miliolitic limestone (117), Soil & alluvium (117), Structure (118).	
<b>Segment-II B</b>	<b>120</b>
Geology (121), Flow-I (123), Flow-II (125), Intrusives (126), Miliolitic limestone (133), Soil & alluvium (135), Structure (135).	
<b>Tectonic interpretation of the study area</b>	<b>136</b>
<b>IV GEOMORPHOLOGICAL SET-UP</b>	<b>143-182</b>
<b>Geomorphological classification of Saurashtra</b>	<b>144</b>
The Trappean highlands (148), The coastal plains (149), The shore line (150).	
Morphogenetic region	151
Geomorphic processes	151
Drainage	152
<b>Geomorphological setting of the study area</b>	<b>156</b>

<b>Erosional landforms</b>	<b>161</b>
Highly dissected plateau (161), Moderately dissected plateau (161), Denudational hill (164), Buried pediment (164), Buried pediplain (166), Ridges (166).	
<b>Depositional landforms</b>	<b>169</b>
Valley fill (169).	
<b>Drainage</b>	<b>171</b>
<b>Slopes</b>	<b>175</b>
<b>Geomorphology- vegetation relationship</b>	<b>180</b>
<b>V. SOIL RESOURCES OF THE STUDY AREA</b>	<b>183-247</b>
<b>Physical properties</b>	<b>187</b>
Soil colour	187
Soil texture	188
Soil types	205
Sandy soils (205), Loamy soils (208), Clayey soils (211).	
Soil moisture	211
<b>Chemical properties</b>	<b>212</b>
pH (213), Electrical conductivity (216), Organic carbon (219), Calcium (221), Magnesium (225), Sodium (225), Potassium (230), Phosphorous (232).	
<b>Topography-soil relationships</b>	<b>233</b>
<b>Vegetation-soil relationships</b>	<b>235</b>
<b>Soil moisture balance of the Gir area</b>	<b>237</b>
<b>Moisture index</b>	<b>246</b>

<b>VI. WATER RESOURCES</b>	<b>248-319</b>
<b>Hydrometeorology</b>	<b>250</b>
Temperature (251), Humidity (253), Wind (253), Precipitation (254), Rainfall pattern (254), Weighted area precipitation (255).	
<b>Surface water resources</b>	<b>259</b>
Mode of occurrence & distribution (260), Potential (263).	
<b>Groundwater resources</b>	<b>266</b>
Mode of occurrence & distribution (266), Phreatic aquifers (268), Semi-confined aquifers (268), confined aquifers (269).	
<b>Hydrogeological evaluation</b>	<b>270</b>
Hydrolithological characteristics (271), Hydrostructural characteristics (274), Hydrogeomorphological characteristics (276).	
<b>Groundwater extraction structures</b>	<b>279</b>
Temporary structures (280), Permanent structures (280).	
<b>Water resources evaluation</b>	<b>284</b>
Surface water resources (284), Groundwater resources (285).	
<b>Quality analysis methodology</b>	<b>289</b>
<b>Hydrochemical characteristics</b>	<b>298</b>
TDS (300), pH (306), Calcium (306), Magnesium (307), Chloride (308), Sulphate (309), Nitrate (311), Fluoride (315), Total hardness (316), Alkalinity (317), Turbidity (318).	
<b>Overall quality rating</b>	<b>319</b>

<b>VII. TERRAIN FACTOR CONTROL OVER LION HABITAT</b>	<b>320-347</b>
<b>Hypothesis</b>	<b>320</b>
<b>Lion distribution : A historical &amp; geographical perspective</b>	<b>326</b>
<b>Terrain control</b>	<b>333</b>
<b>Terrain suitability</b>	<b>335</b>
<b>Discussion</b>	<b>339</b>
<b>Application</b>	<b>346</b>
<b>VIII. RESOURCE MANAGEMENT STRATEGIES</b>	<b>348-414</b>
<b>Climate &amp; rainfall</b>	<b>348</b>
Suggestions (352).	
<b>Soils</b>	<b>353</b>
Suggestions (354).	
<b>Water resources</b>	<b>354</b>
Problem profile	355
Development strategies (361), Approach methodology (365), Rainwater harvesting structures (370).	
Water development	371
Groundwater resources development	388
<b>Forest fire</b>	<b>403</b>
Suggestions (409).	
<b>Biotic pressure</b>	<b>409</b>
Suggestions (413).	
<b>IX. SUMMARY &amp; CONCLUSION</b>	<b>417-422</b>
<b>APPENDIX-I</b>	<b>423</b>
<b>BIBLIOGRAPHY</b>
