

LIST OF TABLES

Table No.		Page No.
1	Detailed classification of the floristic elements of the study area as compared to the forest types	11
2	Stratigraphic succession of Saurashtra peninsula	22
3	Generalised stratigraphic sequences of the Saurashtra peninsula	52
4	Identification key for geomorphological categorisation from LANDSAT satellite data	160
5	Slope analysis of the study area	179
6	Geomorphology - Vegetation relationship in the study area	181
7	Physico-chemical analysis of the soils	193
8	Textural analysis of the soils	198
9	General terms used to described soil texture in relation to the basic soil textural class names	206
10	Interpretation of electrical conductivity readings	218
11	Possible correlation between soil types and geomorphic units	236
12	Possible correlation between soil types and forest types	238
13	Potential evapotranspiration of the study area	242
14	Soil moisture balance of the study area	244
15	Moisture index and climatic types	247
16	Mean monthly climatic data observed in the study area	252

17	Rainfall data of the study area	256
18	Absolute extremes of rainfall	257
19	Weighted area precipitation	257
20	Details of reservoirs of the study area	261
21	Present status of water structures in the study area	281
22	Indian Standard Specification for drinking water	301
23	Surface water quality of the study area	302
24	Groundwater quality of the study area	303
25	Types of water based on the total concentration of dissolved solids	304
26	Predator-Prey ratios	341
27	Ecological separation among the major carnivores	344
28	Kills made by lions outside Gir Sanctuary during 1980-82	345
29	Geotechnical features of rainwater harvesting structures	372
30	Results of vertical electrical soundings	399
