

C O N T E N T S

Chapter No.	Title	Page No.
PART I		
	List of Figures	i
	List of Plates	vi
	List of Tables	vii
Chapter 1	INTRODUCTION	1
	Aims and Objectives	1
	Approach and Methodology	2
	Climate	2
	General Geology	3
	Mahi-Kadana Project	6
Chapter 2	GEOLOGICAL INFORMATION	13
	Litho-stratigraphic Sequence	15
	Quaternary-Holocene Sequence	17
Chapter 3	TERRAIN CHARACTERISTICS	20
	Physiography	20
	Landform Features	20
	Drainage System	23
	Landuse Pattern	25
Chapter 4	WATER RESOURCES CHARACTERIZATION	27
	Regional Hydrogeologic setup	27
	Hydrogeology of the Study Area	29
	Water Level Fluctuation	39
	Secular Changes in Groundwater Region	46
	Hydraulic Characteristics	50
	Groundwater Chemistry	52
	Ionic Variation	58
	Groundwater Quality Assessment	60
	Hydrogeological Inferences	68

Chapter 5	SOIL AND SUBSOIL CHARACTERISTICS	70
	Soils of Gujarat	70
	Soil Characteristics of MRBC Area	71
	Soil Properties	74
	Physical Characteristics	76
	Soil Water Interaction	78
	Soil and Land Irrigation Classification	84
	Soil Chemistry	87
	Chemical Classification of Soils	98
	Saline and Alkali Soils of MRBC Area	102
		-
	PART II	
Chapter 6	MATAR COMMAND	104
	Terrain Characteristics	104
	Geology	105
	Climate	107
Chapter 7	SOIL REGIME	108
	Field Investigation	108
	Soil Sampling	110
	Soils of Matar Command	113
	Laboratory Investigation	124
	Mineralogy of Soils	125
	Physical Properties	137
	Soil Chemistry	144
	Fertility of Soils	165
	Land Irrigability Evaluation	172
Chapter 8	WATER REGIME	175
	Rainfall	176
	Canal Water Input	177
	Groundwater Resources	178
	Groundwater Characteristics	180
	Water Level Fluctuation	182

	Seasonal Behaviour	182
	Secular Behaviour	183
	Net-Change in Ground Water Regime	194
	Hydro Iso-Bath Analysis	195
	Groundwater Chemistry	199
	Chemical Evaluation of Groundwater	200
	Hydrogeological Inferences	230
Chapter 9	WATER BALANCE STUDIES	233
	Inflow Parameters	233
	Outflow Parameters	234
	Groundwater Draft	237
Chapter 10	IMPACT OF IRRIGATION ON SOIL AND WATER REGIME	241
	Impact of Irrigation in Matar Command Area	242
	Rise in Water Level	242
	Groundwater Salinity	252
	Soil Degradation	257
	Mechanism of Soil and Groundwater Salinization	264
	Nature of Salts	263
	Empirical Modeling for Soil Salinization	264
	Waterlogging and Soil Salinity Mapping Remote Sensing Approach	267
Chapter 11	SOIL AND WATER MANAGEMENT STRATEGIES	269
	Irrigation and Water Management Practice	270
	Soil Management	272
	Saline Soils	273
	Sodic Soils	275
	REFERENCES	281-303
	Annexure I	
	Annexure II	
	Annexure III
