

LIST OF FIGURES

Figure No	Description	Page No.
Fig. 1.1	Iso-hyte Map of Gujarat	3
Fig. 1.2	Location Map of Mahi Right Bank Canal Command Area	7
Fig. 1.3	Canal Network Map of Mahi Right Bank Canal Command Area	10
Fig. 2.1	Tectonic Setting of Western India	13
Fig. 2.2	Lithostratigraphic Set-up of Cambay Basin	14
Fig. 2.3	Sub-surface Geologic Profile in MRBC Command Area.	18
Fig. 3.1	Geomorphological and Landform Attributes in Parts of Sabarmati-Mahi Interstream Area	22
Fig. 3.2	Geomorphic Attribute Map of MRBC Area	24
Fig. 3.3	Drainage Map of MRBC Area	25
Fig. 4.1	Hydrogeological Map of Gujarat	28
Fig. 4.2	Location of Irrigation Tanks and Ponds in MRBC Command Area	30
Fig. 4.3	Groundwater Recharge and Development of Sweet Water Mound on Account of Surface Water Body (Pond and Tank)	30
Fig. 4.4	Piper Tri-linear Diagram for Suitability of Canal and Surface Water Quality in MRBC Area for Drinking Purpose.	33
Fig. 4.5 a	U. S. Salinity Diagram of Surface and Canal Water in MRBC area.	34
Fig. 4.5 b	Suitability of Surface and Canal Water for Irrigation in MRBC area.	34
Fig. 4.6 a	Hydrogeological Profile of MRBC Command Area	36
Fig. 4.6 b	Hydrogeological Profile of MRBC Command Area	36
Fig. 4.7 a	Hydrogeological Profile of MRBC Command Area	38
Fig. 4.7 b	Hydrogeological Profile of MRBC Command Area	38
Fig. 4.7 c	Hydrogeological Profile of MRBC Command Area	38
Fig. 4.8	Location Plan of Observation Wells in MRBC Area	39
Fig. 4.9	Reduced Water Level Contour Plan of MRBC Area. (Year: 1958)	40
Fig. 4.10	Hydro Iso-bath Contour Plan of MRBC Area. (Year: 1958)	41
Fig. 4.11	Reduced Water Level Contour Plan of MRBC Area. (Year: 1975-1985)	42
Fig. 4.12	Reduced Water Level Contour Plan of MRBC Area. (Year: 1995-1999)	43
Fig. 4.13	Hydrographic Profiles of MRBC Area (a) 1975-99 and (b) 1975-85-95-99	44
Fig. 4.14	Hydro Iso-bath Contour Plan of MRBC Area. (Year: 1985)	45
Fig. 4.15	Hydro Iso-bath Contour Plan of MRBC Area. (Year: 1995)	45
Fig. 4.16	Hydro Iso-bath Contour Plan of MRBC Area. (Year: 1999)	46

Fig. 4.17	Secular Variation in Water Table Situation in the MRBC Area (Year: 1975-1999)	47
Fig. 4.18	Secular Changes in Groundwater Regime in MRBC Area	49
Fig. 4.19	Net Change in Groundwater Storage in MRBC Area (Year:1958-99)	49
Fig. 4.20	Secular Changes in Groundwater Quality in MRBC Area	55
Fig. 4.21	Iso-TDS Contour Plan of MRBC Area. (Year: 1975)	56
Fig. 4.22	Iso-TDS Contour Plan of MRBC Area. (Year: 1999)	57
Fig. 4.23	Piper Tri-linear Diagram for Suitability of Groundwater Quality in MRBC Area for Drinking Purpose (Year: 1975)	61
Fig. 4.24 a	Piper Tri-linear Diagram for Suitability of Groundwater Quality in Upper Command of MRBC Area for Drinking Purpose (Year: 1999)	62
Fig. 4.24 b	Piper Tri-linear Diagram for Suitability of Groundwater Quality in Middle Command of MRBC Area for Drinking Purpose (Year: 1999)	63
Fig. 4.24 c	Piper Tri-linear Diagram for Suitability of Groundwater Quality in Lower Command of MRBC Area for Drinking Purpose (Year: 1999)	64
Fig. 4.25	Secular Changes in Groundwater Regime for Irrigation in MRBC area.	65
Fig. 4.26	U. S. Salinity Diagram Showing Secular Changes in Groundwater Regime of MRBC area.	66
Fig. 4.27	Hydrogeological Map of MRBC Command Area	69
Fig. 5.1	Soils of Gujarat	71
Fig. 5.2	Soils of MRBC command Area	72
Fig. 5.3	Graph Showing Relationship between Matric Potential and Water Content for Different Soil Series in MRBC Command Area	81
Fig. 5.4	Land Irrigability Classification of MRBC Area	86
Fig. 6.1	Location Map of Matar Command Area.	105
Fig. 7.1	Observation Well and Soil Sampling Locations in Matar Command Area.	109
Fig. 7.2	Filed Inventory Sheet for Soil Survey.	110 a
Fig. 7.3	Hypothetical Soil Profile.	113
Fig. 7.4	Soil Profile and Its Physico-chemical Characteristics as Visualized at Dantali	114
Fig. 7.5	Soil Profile and Its Physico-chemical Characteristics as Visualized at Sokhada	115
Fig. 7.6	Soil Profile and Its Physico-chemical Characteristics as Visualized at Dabhan	116
Fig. 7.7	Soil Profile and Its Physico-chemical Characteristics as Visualized at Shekhupur	117
Fig. 7.8	Soil Profile and Its Physico-chemical Characteristics as Visualized at Traj	117

Fig. 7.9	Soil Profile and Its Physico-chemical Characteristics as Visualized at Sandhana	118
Fig. 7.10	Soil Profile and Its Physico-chemical Characteristics as Visualized at Heranj	119
Fig. 7.11	FTIR Spectrum of Sandy Loam Soils Location: Dantali.	126
Fig. 7.12	FTIR Spectrum of Clayey Loam Soils Location: Shekhupur.	127
Fig. 7.13	FTIR Spectrum of Sandy Clay Loam Soils Location: Dabhan.	129
Fig. 7.14	FTIR Spectrum of Clayey Soils Location: Traj.	130
Fig. 7.15	Percentage of Clay and Triangular Diagram Showing Basic Textural Variation of Soils in Matar Command Area.	131
Fig. 7.16	Soil Map of Matar Command Area.	132
Fig. 7.17	Depth wise Variation in Sand, Silt and Clay Percentage in Soils of Matar Command Area.	133
Fig. 7.18 a	Iso-MHC Contour Map of Soils in Matar Command Area. Depth: 0-50 cm	136
Fig. 7.18 b	Iso-MHC Contour Map of Soils in Matar Command Area. Depth: 50-100 cm	137
Fig. 7.18 c	Iso-MHC Contour Map of Soils in Matar Command Area. Depth: 100-150 cm	137
Fig. 7.19	Depth wise Variation in Moisture Holding Capacity of Soils in Matar Command Area. (Section along A-A')	138
Fig. 7.20	Rate of Infiltration as a Function of Time in Different Soils of Matar Command Area.	140
Fig. 7.21	Successive Distribution of Soil Moisture During Infiltration in Various Soils of Matar Command Area.	142 a
Fig. 7.22	Depth wise Variation in Permeability of Soils in Matar Command Area.	143
Fig. 7.23	Temporal Behaviour of pH of Soils in Matar Command Area. (Depth: 0-50 cm)	145
Fig. 7.24	Temporal Behaviour of pH of Soils in Matar Command Area. (Depth: 50-100 cm)	146
Fig. 7.25	Temporal Behaviour of pH of Soils in Matar Command Area. (Depth: 100-150 cm)	147
Fig. 7.26	Depth wise Temporal and Secular Behaviour of pH of Soils in Matar Command Area.	148
Fig. 7.27	Temporal Behaviour of Electrical Conductance of Soils in Matar Command Area. (Depth: 0-50 cm)	151
Fig. 7.28	Depth wise Temporal and Secular Behaviour of Electrical Conductance of Soils in Matar Command Area.	152
Fig. 7.29	Temporal Behaviour of Exchangeable Sodium of Soils in Matar Command Area. (Depth: 0-50 cm)	157
Fig. 7.30	Depth wise Temporal and Secular Behaviour of Exchangeable Sodium of Soils in Matar Command Area.	158
Fig. 7.31	Temporal Behaviour of Cation Exchange Capacity of Soils in Matar Command Area. (Depth: 0-50 cm)	160
Fig. 7.32	Depth wise Temporal and Secular Behaviour of Cation Exchange Capacity of Soils in Matar Command Area.	161

Fig. 7.33	Depth wise Temporal and Secular Behaviour of Exchangeable Sodium Percentage of Soils in Matar Command Area.	163
Fig. 7.34	Seasonal Behaviour of Organic Carbon Content of Soils in Matar Command Area.	167
Fig. 7.35	Seasonal Behaviour of Available Phosphorous Content of Soils in Matar Command Area.	169
Fig. 7.36	Seasonal Behaviour of Available Potassium Content of Soils in Matar Command Area.	171
Fig. 7.37	Land Irrigability Classification Map for Soils in Matar Command Area.	173
Fig. 8.1	Time Series of Canal Water Input vis-à-vis Rainfall Pattern in Matar Command Area.	176
Fig. 8.2	Time Series Plots Depicting Mean Monthly Canal Water Input and Rainfall in Matar Command.	178
Fig. 8.3	Sub-surface Section of Matar Command Area.	179
Fig. 8.4	Sub-surface Section of Matar Command Area.	180
Fig. 8.5	Seasonal Reduced Water Level Contour of Matar Command Area. (Year: 1976)	184
Fig. 8.6	Seasonal Reduced Water Level Contour of Matar Command Area. (Year 1999)	185
Fig. 8.7	Spatial Hydrographic Profiles Along Asamli-Nadiad (A-A') Transact Showing Seasonal Fluctuation in Groundwater Regime in Matar Command Area.	186
Fig. 8.8	Reduced Water Level Contour Plan of Matar Command Area. (Year: 1958)	188
Fig. 8.9	Reduced Water Level Contour Plan of Matar Command Area. (Year: 1976)	189
Fig. 8.10	Reduced Water Level Contour Plan of Matar Command Area. (Year: 1980)	190
Fig. 8.11	Reduced Water Level Contour Plan of Matar Command Area. (Year: 1990)	191
Fig. 8.12	Reduced Water Level Contour Plan of Matar Command Area. (Year: 1999)	192
Fig. 8.13	Spatial Hydrographic Profile Along Asamli-Nadiad (A-A') Transact Showing Secular Changes in Groundwater Regime in Matar Command Area.	194
Fig. 8.14	Net Change in Groundwater Regime in Matar Command Area. (Year: 1958-1999)	196
Fig. 8.15	Hydro Iso-bath Map of Matar Command Area. (Year: Pre-monsoon 1999)	197
Fig. 8.16	Hydro Iso-bath Map of Matar Command Area. (Year: Post-monsoon 1999)	198
Fig. 8.17	Hydro Iso-Bath Trends in Matar Command Area	199
Fig. 8.18	Seasonal Variation in Electrical Conductance of Groundwater in Matar Command Area.	201
Fig. 8.19	Location Specific Secular Variation in Electrical Conductance of Groundwater in Matar Command Area.	203
Fig. 8.20	Iso-TDS Contour Diagram of Groundwater in Matar Command Area. (Year: Pre-monsoon 1976)	207

Fig. 8.21	Iso-TDS Contour Diagram of Groundwater in Matar Command Area. (Year: Pre-monsoon 1999)	209
Fig. 8.22	Piper Tri-linear Diagram for Suitability of Groundwater Quality in MRBC Area for Drinking Purpose (Year: Post-Monsoon 1998)	218
Fig. 8.23	Piper Tri-linear Diagram for Suitability of Groundwater Quality in MRBC Area for Drinking Purpose (Year: Pre-Monsoon 1999)	219
Fig. 8.24	Piper Tri-linear Diagram for Suitability of Groundwater Quality in MRBC Area for Drinking Purpose (Year: Post-Monsoon-1999)	219
Fig. 8.25	Seasonal Changes in Groundwater Regime for Irrigation in MRBC area. (Year: Post-monsoon 1998, Pre- & Post-monsoon 1999)	221
Fig. 8.26	U. S. Salinity Diagram Showing Secular Changes in Groundwater Regime of MRBC area. (Year: Post-monsoon 1998)	223
Fig. 8.27	U. S. Salinity Diagram Showing Secular Changes in Groundwater Regime of MRBC area. (Year: Pre-monsoon 1999)	223
Fig. 8.28	U. S. Salinity Diagram Showing Secular Changes in Groundwater Regime of MRBC area. (Year: Post-monsoon 1999)	224
Fig. 8.29	Groundwater Quality Evaluation for Irrigation Purpose using Residual Sodium Carbonate.	225
Fig. 8.30	Groundwater Quality Evaluation for Irrigation Purpose using Kelly's Ratio.	226
Fig. 8.31	Groundwater Quality Evaluation for Irrigation Purpose using Soluble Sodium Percentage.	227
Fig. 8.32	Groundwater Quality Evaluation for Irrigation Purpose using Schoeller Index.	228
Fig. 8.33	Seasonal Fluctuation of Magnesium Concentration in Groundwater and Its Suitability for Irrigation Purpose.	230
Fig. 8.34	Hydrogeological Map of Matar Command Area.	232
Fig. 9.1	Relationship of Calculated and Observed Value of Water Table Fluctuation with Canal Seepage	240
Fig. 10.1	Hydro Iso-bath Map of Matar Command Area. (Year: 1976)	244
Fig. 10.2	Hydro Iso-bath Map of Matar Command Area. (Year: 1999)	245
Fig. 10.3	Hydro Iso-Bath Trends in Matar Command Area	246
Fig. 10.4	Yearwise Area Irrigated from Different Sources in Matar Command Area.	248
Fig. 10.5	Achievement of the Irrigation Potential with Respect to Irrigation Potential Created in Matar Command Area.	249
Fig. 10.6	Gibb's Plot Showing Evaporation Characteristics of Groundwater in Matar Command Area.	254
Fig. 10.7	Waterlogged Area as Delineated from the IRS 1A data.	268
Fig. 10.8	Salt Affected Soils as Delineated from the IRS 1A data.	268
