

L I S T O F T A B L E S

Table No.	Description	Page No.
Table 1.1	General Geology of Tarapur-Cambay Block	6
Table 1.2	Salient Features of Canal System in Mahi Right Bank Canal Command Area	11
Table 2.1	Lithostratigraphic Sequence in Cambay-Tarapur Block	16
Table 3.1	Landuse Pattern in MRBC Area	26
Table 4.1	Salient Features of the Irrigation Tanks in MRBC Area	31
Table 4.2	Status of Canal Water Supply in MRBC Area	31
Table 4.3	Analytical Details of Surface Water in MRBC Area	33
Table 4.4	Secular Changes in Groundwater Regime in MRBC Area	48
Table 4.5	Hydraulic Characteristics in Aquifer in MRBC Area	51
Table 4.6	Variation in Hydraulic Gradient in MRBC Area	52
Table 4.7	Analytical Details of Groundwater in MRBC Area	54
Table 4.8	Secular Changes in Electrical Conductance of Groundwater in MRBC Area	55
Table 5.1	Salient Physico-chemical Characteristics of Soils of MRBC Area.	75
Table 5.2	Soil Structure and its Suitability for Irrigation	77
Table 5.3	Simple Correlation Coefficient between Different Soil Properties in MRBC Area	80
Table 5.4	Soil Permeability Classes	82
Table 5.5	Permeability of Soil for Different Classes in MRBC Area	83
Table 5.6	Critical Water Table Depth for Soil in MRBC Area	84
Table 5.7 a	Specification for Soil Irrigability Classes for Arid and Semi-Arid Regions	85
Table 5.7 b	Specification for Land Irrigability Classes for Arid and Semi-Arid Regions	86
Table 5.8	Spatial Variation in pH of Soils of MRBC Area	87
Table 5.9	Physico-chemical Characteristics of the Soils of the Mahi Right Bank Canal Command Area [Year : 1980]	88
Table 5.10	Physico-chemical Characteristics of the Soils of the Mahi Right Bank Canal Command Area [Year : 1990]	91

Table 5.11	Physico-chemical Characteristics of the Saline Soils of the Mahi Right Bank Canal Command Area [Year : 1985]	103
Table 6.1	Village wise Landuse Pattern, Matar Branch Command of MRBC Area.	107
Table 7.1	Salient Physico-chemical Characteristics of Soils of MRBC Area.	134
Table 7.2	Spatial Changes in the Hydraulic Conductivity in Soils of Matar Command Area.	142
Table 7.3	Secular Variation in Electrical Conductance of Soil in Matar Command.	149
Table 7.4	Spatial and Temporal Behaviour of Exchangeable Sodium in Matar Command area	159
Table 7.5	Spatial and Temporal Behaviour of Cation Exchange Capacity in Matar Command area	162
Table 7.6	Spatial and Temporal Behaviour of Exchangeable Sodium Percentage in Matar Command area	164
Table 7.7	Fertility Status of Soils in Matar Command	172
Table 8.1	Average Annual Canal Discharge Records in Matar Branch Canal Measured at Piplag.	177
Table 8.2	Aquifers' Hydraulic Characteristics in Matar Branch Command Area.	181
Table 8.3	Secular Water Table Scenario in the Matar Branch Command	187
Table 8.4	Hydro Iso-Bath Estimates of Matar Branch Command Area.	195
Table 8.5	Secular Variation in Electrical Conductance in Matar Command Area	204
Table 8.6	Temporal Aerial Distribution Pattern of Electrical Conductance in Matar Command Area	204
Table 8.7	Secular Variation in pH of Groundwater in Matar Command Area	205
Table 8.8	Temporal Aerial Distribution Pattern of pH in Matar Command Area	205
Table 8.9	Secular Changes in Total Dissolved Solids in Matar Command Area	206
Table 8.10	Drinking Water Quality Standards vis-a-vis Groundwater Quality in Matar Command Area	216
Table 9.1	Average Annual Recharge to Groundwater in Matar Branch Command Area. (1979-99)	236
Table 9.2	Statistical Correlation Analysis between Groundwater Recharge	238

	and Water Table Fluctuation	
Table 9.3	Water Table Fluctuation vis-a-vis Groundwater Relationship using Linear Regression Approach	239
Table 9.4	Secular Changes in Groundwater Storage in Matar Command Area	239
Table 10.1	Hydro Iso-Bath Estimates of Matar Branch Command Area.	243
Table 10.2	Suggested and Practiced Cropping Pattern in MRBC Command Area (ha)	250
Table 10.3	Production Performance (q/ha) of Different Crops under Different Land Irrigability Classes and Soil Degradation Levels.	251
Table10.4	Temporal Aerial Distribution Pattern of Electrical Conductance in Matar Command Area	253
Table10.5	Temporal Aerial Distribution Pattern of pH in Matar Command Area	253
Table 10.6	Statistical data on Ionic content of Groundwater in Matar Command	256
Table 10.7	Correlation Matrix among Different Water Quality Variables	256
