

## LIST OF TABLES

| Table No. | Description  | Page No. |
|-----------|--|----------|
| 1.1       | Details Regarding Lined and Unlined Canals in KLBC Area.   | 10       |
| 1.2       | Statement Showing the Detail Regarding Taluka Wise G.C.A., C.C.A. and Potential Created for Kakrapar Left Bank Command Area.   | 11       |
| 2.1       | Litho-stratigraphic Setup of South Gujarat and its Environs.   | 18       |
| 3.1       | Summary of South Gujarat Landforms.  | 30       |
| 3.2       | Landuse Pattern of Kakrapar Left Bank Canal Command Area.  | 36       |
| 4.1       | Water Resources of Gujarat State.  | 39       |
| 4.2       | Areas Under Different Sources of Irrigation in Different Talukas Coming Under the Kakrapar Left Bank Canal Project Before Commissioning of Kakrapar Project (1953-54).       | 41       |
| 4.3       | Areas Under Different Sources of Irrigation in Different Talukas Coming Under the Kakrapar Left Bank Canal Project After Commissioning of Ukai & Kakrapar Project (1977-78). | 42       |
| 4.4       | Areas Under Different Sources of Irrigation in Different Talukas Coming Under the Kakrapar Left Bank Canal Project During 1991.  | 42       |
| 4.5       | The Details Regarding Lined and Unlined Canals in KLBC Area.   | 44       |
| 4.6       | Estimated Seepage Losses from the Canals in KLBC Area.   | 44       |
| 4.7       | Major Physico-chemical Constituents of Canal Water (premonsoon -2000).   | 45       |
| 4.8       | Various Parameter Used to Determine Irrigation Water Quality of Canal Water.   | 45       |
| 4.9       | Hydraulic Characteristics of Alluvium and Basaltic Aquifers.   | 50       |
| 4.10      | Hydrogeomorphic Units and Groundwater Prospects in KLBC Command Area (Based on LANDSAT data of March 1986).  | 52       |
| 4.11      | Geohydrological Data of Various Aquifers in Kakrapar Left Bank Canal Command Area.   | 58       |
| 4.12      | Groundwater Gradient and Movement Direction During Pre and Post Canal Irrigation Scenario.   | 62       |

|      |  |     |
|------|--|-----|
| 4.13 | Secular Behaviour of Hydro-Iso-Bath (HIB) vis-à-vis Affected Command Area.             | 68  |
| 4.14 | Major Physico-chemical Constituents of Groundwater, KLBC Area.                         | 69  |
| 4.15 | Drinking Water Quality Standards.  | 74  |
| 4.16 | Range of Irrigation Water Quality Parameters for Pre-monsoon 1981 and 2000, KLBC Area. | 78  |
| 5.1  | Soil Taxonomic Classification of KLBC Area.  | 85  |
| 5.2  | Aerial Extent and Classification of Soil Depth in the KLBC Area.                       | 87  |
| 5.3  | Textural Variation and Spatial Distribution (ha) of Surface Soil in KLBC Area.         | 88  |
| 5.4  | Soil Textural Variation and Spatial Distribution of Sub-Surface (ha) in KLBC Area.     | 90  |
| 5.5  | Important Soil Characteristics Based on Surface Soil Colours.                          | 92  |
| 5.6  | Important Soil Characteristics Based on Sub-Surface Soil Colours.                      | 92  |
| 5.7  | Moisture Holding Capacity of the Soils in KLBC area.                                   | 95  |
| 5.8  | Spatial Distribution of Available Water Holding Capacity of Soils in KLBC Area.        | 96  |
| 5.9  | Permeability Classification of Saturated Soils.  | 97  |
| 5.10 | Observed Permeability Range in KLBC Area.  | 97  |
| 5.11 | Classes of Infiltration Rates for Soils.   | 98  |
| 5.12 | Infiltration Rate of soils in KLBC Area.   | 98  |
| 5.13 | Chemical Characterization of Soils Based on pH of soil.                                | 99  |
| 5.14 | Aerial Extent of Surface Soil (< 90 cm) pH in KLBC Area.                               | 100 |
| 5.15 | Aerial Extent of Sub-surface Soil (> 90 cm) pH in KLBC Area.                           | 101 |
| 5.16 | Aerial Extent of Salinity in Surface Soil (< 90 cm) of KLBC Area.                      | 102 |
| 5.17 | Aerial Extent of Salinity in Sub-surface Soil (> 90 cm) of KLBC Area.                  | 102 |
| 5.18 | A Generalized Correlation Between Soil Texture and CEC.                                | 103 |
| 5.19 | Range of Soil's CEC in KLBC Area.  | 104 |
| 5.20 | Range of Soils' ESP in KLBC Area.  | 104 |
| 5.21 | Range of Soil's Organic Matter in KLBC Area.   | 105 |

|      |   |     |
|------|---|-----|
| 5.22 | Range of Soil's Calcium Carbonate in KLBC Area.   | 106 |
| 5.23 | Land Capability Classification for Well Irrigated Lands.  | 107 |
| 5.24 | Soils Irrigability Class and their Characteristics.   | 107 |
| 5.25 | Soil Irrigability Classes of Semi-Arid and Arid Regions.  | 108 |
| 5.26 | Land Irrigability Classification.   | 109 |
| 5.27 | Aerial Extent of the Soils Under Different Land Irrigability Class in KLBC Area (1970).                         | 110 |
| 5.28 | Aerial Extent of the Soils Under Different Land Irrigability Class in KLBC Area (2001).                         | 110 |
| 6.1  | Hydraulic Data of Chalthan Branch Canal System.   | 117 |
| 7.1  | Canal Discharge Records of Chalthan Branch.   | 122 |
| 7.2  | Hydrochemical Characteristics of Canal Water in Chalthan Branch Canal Command Area.                             | 123 |
| 7.3  | Geohydrological Information of the Aquifers in Chalthan Branch Canal Command Area.                              | 125 |
| 7.4  | Groundwater Gradients and Direction During Pre and Post Canal Irrigation Scenario in Chalthan Command Area.     | 129 |
| 7.5  | Secular Water Table Scenarios in the Chalthan Branch Canal Command Area.  | 133 |
| 7.6  | Secular Variations in Electrical Conductance (pre monsoon) of Groundwater in Chalthan Command Area.             | 141 |
| 7.7  | Temporal Aerial Distribution Pattern of Electrical Conductance in Chalthan Command Area.                        | 142 |
| 7.8  | Secular Variations in TDS (pre monsoon) of Groundwater in Chalthan Branch Command Area.                         | 144 |
| 7.9  | Summary of Drinking Water Quality Standards vis-à-vis Groundwater Quality in Chalthan Branch Command Area.      | 154 |
| 7.10 | Classification of Water Based on Hardness.  | 154 |
| 7.11 | Details of Groundwater Samples Belonging to Different Fields of Piper-Trilinear Diagrams.                       | 157 |
| 7.12 | Classification of Irrigation Water Based on Electrical Conductance (EC).  | 160 |
| 7.13 | Salinity Classification Based on EC.  | 162 |
| 7.14 | Alkalinity Classification Based on SAR.   | 162 |
| 7.15 | Details of Groundwater Samples Belonging to Different Class of U. S. Salinity Diagram in Chalthan Command Area. | 162 |
| 7.16 | Water Classification Based on Sodium Percentage.  | 167 |

|      |  |     |
|------|--|-----|
| 7.17 | Water Classification Based on Adj. SAR.  | 170 |
| 7.18 | Irrigation Water Classification Based on Chloride Content.   | 171 |
| 7.19 | Irrigation Water Classification Based on Potential Salinity.   | 172 |
| 7.20 | Irrigation Water Classification Based on Sulphate Content.   | 173 |
| 7.21 | Hydrochemical Facies of Groundwater in Chalthan Branch Canal Command Area.   | 175 |
| 8.1  | Soil Series and Taxonomic Classification of soils in Chalthan Branch Canal Command Area.                             | 183 |
| 8.2  | Inventories of Soils Data for Studying Irrigation Impacts.   | 188 |
| 8.3  | Aerial Distribution Pattern of Moisture Holding Capacity at Various Depth Range, Chalthan Branch Canal Command Area. | 195 |
| 8.4  | Distribution of Available Water Holding Capacity in Chalthan Branch Canal Command Area.                              | 195 |
| 8.5  | Soil Infiltration Rate at Various Locations in Chalthan Branch Canal Command Area.                                   | 196 |
| 8.6  | Aerial Distributions of Hydraulic Conductivity at Various Depth Range in Chalthan Branch Canal Command Area.         | 199 |
| 8.7  | Secular and Seasonal Variations in Soil pH in Chalthan Branch Canal Command Area.                                    | 203 |
| 8.8  | Secular and Seasonal Variations in Soil EC in Chalthan Branch Canal Command Area.                                    | 208 |
| 8.9  | Secular and Seasonal Variations in Soil Exchangeable Sodium, Chalthan Branch Canal Command Area.                     | 215 |
| 8.10 | Secular and Seasonal Variations in Soils Cation Exchange Capacity, Chalthan Branch Canal Command Area.               | 219 |
| 8.11 | Fertility Status of Soils in Chalthan Branch Canal Command Area.   | 230 |
| 9.1  | Long term Changes in Seasonal Fluctuations in Groundwater Table.   | 235 |
| 9.2  | Hydro-Iso-Bath Estimates of Chalthan Branch Canal Command Area.  | 239 |
| 9.3  | Water Table Fluctuation Observed During the Year (Sugarcane Research Farm, Navsari).                                 | 244 |
| 9.4  | Recommended and Adopted Crop Pattern of Kakrapar Left Bank Canal Command Area in the Year 1954 (area in Hectare).    | 248 |
| 9.5  | Suggested and Adopted Cropping Patterns Based on Land Irrigability Classes in the Kakrapar Command Area.             | 248 |

|      |  |     |
|------|--|-----|
| 9.6  | Temporal Aerial Distribution Pattern of Electrical Conductance in Chalthan Branch Canal Command Area.  | 253 |
| 9.7  | Seasonal Ionic Ratio of Groundwater in Chalthan Branch Canal Command Area.   | 254 |
| 9.8  | Statistical Data on Ionic Content of Groundwater in Chalthan Command Area.   | 256 |
| 9.9  | Correlation Matrix Among Different Water Quality Variables (pre monsoon 1999).   | 257 |
| 9.10 | Correlation Matrix Among Different Water Quality Variables (post monsoon 1999).  | 257 |
| 9.11 | Empirical Constants and Coefficient of Determination ( $R^2$ ) for Different Models for Groundwater in Chalthan Branch Canal Command Area (premonsoon 1999).       | 259 |
| 9.12 | Empirical Constants and Coefficient of Determination ( $R^2$ ) for Different Models for Soil Soluble Ions in Chalthan Branch Canal Command Area (premonsoon 1999). | 268 |
| 9.13 | Land Irrigability Classification in Chalthan Branch Canal Command Area.  | 270 |
| 9.14 | Statistical Data on Shift in Landuse Pattern of Chalthan Branch Command Area.  | 272 |
| 10.1 | Effects of Surface Drainage in Sugarcane Crop Yields.  | 278 |
| 10.2 | Static Water Levels in Chalthan Branch Canal Command Area.   | 282 |
| 10.3 | Chemical Analysis of Saline Groundwater, Canal Water and Blended Water.  | 284 |
| 10.4 | Irrigation Water Quality of Saline Groundwater, Canal Water and Blended Water.   | 284 |
| 10.5 | Comparison of Various Irrigation Methods.  | 285 |
| 10.6 | Crops and Their Relative Tolerance to Waterlogging (Kovda et al, 1973).  | 285 |
| 10.7 | Crops and Their Relative Tolerance to Salinity (Richards, 1954).   | 287 |
