

LIST OF TABLES

Table no.	Title	Page No.
2.1	Geological succession of Banaskantha district	30
2.2	Classification and details of river basins of India.	39
2.3	Details of watershed pertaining to the district.	43
2.4	Surface water flow in the river basins of North Gujarat.	44
2.5	Groundwater resource and irrigation potential of the district.	48
2.6	Land use pattern of the district (1988-89) in Hectares.	51
2.7	Wasteland statistics of Banaskantha district (1990-91).	52
2.8	Salt affected soils in different talukas of district	53
3.1	Summarised informations of the three geoenvironmental units of the district.	71
4.1	River Morphology of Highland	88
4.2	Drainage control features of the area	92
4.3	Taxonomic soil classification of the ERH Unit	95
4.4	Climatic characteristics based on the data from IMD stations at Deesa and Mt. Abu	98
4.5	Rainfall characteristics of ERH unit	99
4.6	Groundwater recharge and development for Eastern Rocky Highland.	103
5.1	Taxonomic soil classification of the Central Alluvial Plain	119
5.2	Exposed Quaternary sediment profile in the alluvial plains of Gujarat.	120

5.3	Stratigraphic sequence of the exposed Quaternary sediments in North Gujarat.	121
5.4	Climatic characteristic based on the data from IMD stations at Bhuj, Deesa and Mt.Abu.	123
5.5	Talukawise average rainfall for the Central Alluvial Plain unit.	124
5.6	Groundwater recharge and development for the Central Alluvial Plain unit.	127
6.1	Taxonomic soil classification of the Western Saline Wasteland unit.	142
6.2	Succession of geological formations in the Western Saline Wasteland.	145
6.3	Talukawise rainfall characteristics in Western Saline Wasteland unit.	148
6.4	Groundwater recharge and development in Western Saline Wasteland unit.	151
6.5	Landuse pattern in Western Saline Wasteland unit.	152
7.1	Regional rainfall characteristics of the area	157
7.2	Rainfall variation within the district.	158
7.3	Geoenvironmental unitwise rainfall characteristics.	159
7.4	Comparative summary of terrain parameters governing runoff	160
7.5	River gauge runoff in Banaskantha (1980-1991)	161
7.6	Yearly surface water flow in sub-catchment of Banaskantha district.	162
7.7	Surface water potential for the three geoenvironmental units.	163
7.8	Geoenvironmental unitwise details of ponds	167
7.9	Details of Major and Medium Schemes of the district.	173

7.10	Geoenvironmental unitwise details of Minor Irrigation structures in the district	174
8.1	Hydrogeological classification and characteristics of Banaskantha district.	182
8.2	Hydrogeological succession and aquifer properties in the district.	183
8.3	Geoenvironmental unitwise groundwater recharge.	194
8.4	Geoenvironmental unitwise details of groundwater draft (data 1978 and 1991).	195
8.5	Waterlevel characterisation of Unconfined aquifer in the district	196
8.6	Piezometric levels and water quality in confined aquifer in WSW unit.	203
9.1	Geoenvironmental diversity and water resources in Banaskantha district	221
