

The contents of this thesis are bound in two separate volumes. The Volume I contains the main text and Volume II (Appendices) contains the descriptions of facets and microfaunal assemblages.

Volume I	Page 1 - 511
Volume II	Page 512 - 712

C O N T E N T S

VOLUME - I

PART - I (BACKGROUND INFORMATION)

<u>CHAPTER</u>		<u>PAGE</u>
ONE	<u>INTRODUCTION</u>	1 - 22
	GENERAL	1
	LOCATION AND PHYSIOGRAPHY	3
	A. Coastal Zone	5
	B. Alluvial Plain	8
	C. Eastern Hill Ranges and Plateaus	10
	CLIMATE	10
	VEGETATION	12
	A. Strand Vegetation	12
	B. Tidal Flat Vegetation	13
	C. Mangrove Vegetation	13
	D. Semi-Arid Vegetation	14
	FAUNA	14
	AGRICULTURE	15
	POPULATION	16
	COMMUNICATION	16
	SCOPE AND METHOD OF INVESTIGATIONS	16
TWO	<u>PREVIOUS WORK</u>	23 - 38
	GENERAL	23
	WESTERN DECCAN TRAP	26
	SEISMIC STUDIES	30

<u>CHAPTER</u>		<u>PAGE</u>
	GEOMORPHOLOGY AND ALLIED ASPECTS	32
	PALAEONTOLOGICAL STUDIES	37
	<u>PART - II (GEOLOGY AND GEOMORPHOLOGY)</u>	
THREE	<u>GEOLOGY OF THE AREA</u>	39 - 75
	GENERAL	39
	DECCAN TRAP	44
	General Characters	44
	Lava Flows Types	47
	Petrography	49
	I. Lava Flows	50
	II. Dykes	60
	i. Basaltic Dykes	61
	ii. Doleritic Dykes	62
	QUATERNARY SEDIMENTS	65
	A. Late Pleistocene Alluvium	65
	B. Holocene Sediments	66
	I. Shoreline Deposits	66
	Beach Deposits	66
	Barrier Ridge Complex	67
	Coastal Dunes	68
	Palaeobars	68
	Littoral Concrete	69
	II. Fluvio-Marine Deposits	70
	River Mouth Bars	70
	Mud Flats	71

<u>CHAPTER</u>		<u>PAGE</u>
	III. Fluvial Deposits	72
	Recent Alluvium	72
	Point Bars	72
	Channel Shoals	73
	Backswamp Deposits	73
	IV. Residual Deposits	74
	Colluvial Deposits	74
	Residual Soil	74
FOUR	<u>STRUCTURE OF THE AREA</u>	76 - 108
	REGIONAL TECTONIC FRAMEWORK	76
	LINEAMENT STUDIES	83
	Definition, Scope and Purpose	83
	Lineament Analysis	87
	FAULTS AND THEIR SIGNIFICANCE	102
	West Coast Fault	103
	Panvel Flexure	104
	STRUCTURAL EVOLUTION	106
FIVE	<u>GEOMORPHOLOGY</u>	109 - 202
	INTRODUCTION	109
	SHORELINE FEATURES	110
	BEACH MORPHOLOGY	115
	I. Tithal Block	120
	II. Daman Block	128
	III. Umbargaon Block	138
	SEDIMENTARY STRUCTURES OF THE	145
	SHORELINE	

	<u>PAGE</u>
Beach Cusps	145
Swash Marks	148
V-Shaped Structure	149
Rill Marks	149
Rhomboidal Rill Marks	151
Ripple Marks	152
Mud Balls	155
Biogenic Structures	157
RIVER MOUTHBAR FEATURES	158
River Mouths	158
Auranga River Mouth Bar	164
Par River Mouth Bar	164
Damanganga River Mouth Bar	165
Kālai River Mouth Bar	167
Varoli River Mouth Bar	168
Tidal Inlets	169
Wave Dominated Inlets	170
Tide Dominated Inlets	171
Transitional Inlets	171
INLAND GEOMORPHIC FEATURES	172
I. Features Associated with	173
Strandlines	
1. Tidal Flats	173
2. Raised Tidal Flats	178

<u>CHAPTER</u>	<u>PAGE</u>
3. Relict Alluvial Patch	179
4. Palaeobars	182
Beach Rock	183
II. Fluvial Landforms	184
5. Alluvial Plains	184
6. River Channels	186
Channel Morphology	186
Point Bars	187
Channel Shoals	189
7. River Terraces	190
8. Flood Plains	195
III. Features of The Hilly Terrains	195
9. Hill Ranges	195
Valleys	197
10. Ridges and Hills Cropping	197
Out of the Alluvium	
11. Peneplains	198
EVOLUTIONARY HISTORY	199
SIX <u>DRAINAGE</u>	203 - 263
GENERAL CONSIDERATIONS	203
CHANNEL CHARACTERISTICS	214
NATURE OF RIVER BEDS	214
Flow Direction	218
River Gradient	219
LONGITUDINAL PROFILE	219

	<u>PAGE</u>
DRAINAGE PATTERN	222
Dendritic Drainage	223
Trellis Drainage	225
Rectangular Drainage	225
Radial Drainage	226
Parallel Drainage	226
DRAINAGE ANALYSIS	226
GENERAL	226
Stream Orders	231
Stream Numbers	232
Stream Length	232
Length Ratio	236
Basin Area	240
Relief Ratio	241
Stream Frequency	241
Drainage Density	241
Length of Overland Flow	243
Bifurcation Ratio	243
Weighted Mean Bifurcation Ratio	243
Constant of Channel Maintenance	243
Elongation Ratio	247
CHARACTERISTICS OF DRAINAGE NETWORK	247
DRAINAGE EVOLUTION	253
LITHOLOGICAL CONTROL	253

<u>CHAPTER</u>		<u>PAGE</u>
	LINEAMENT CONTROL	257
	EUSTATIC CONTROL	258
	I. Tyrrhenian	259
	II. Würm	261
	III. Flandrian	261
	IV. Present Day	262
	<u>PART III (COASTAL SEDIMENT STUDIES)</u>	
SEVEN	<u>METHODS, STUDIES AND OBSERVATIONS</u>	264 - 402
	SCOPE	264
	METHODS	266
	Sampling	266
	Megascopic and Lithologic Studies	267
	Grainsize Analysis	268
	Sieving	268
	Graphic Presentation of	272
	Size Analysis Data	
	Cumulative Curve	272
	Statistical Parameters of	274

CM PATTERNS	356
MODES OF TRANSPORT OF SEDIMENTS	365
Types of Transport	365

	<u>PAGE</u>
Variations in Mode of Transport of Sediments Along the Coast	366
Variations in Mode of ^{transport of} Sediments Across the Coast	374
HEAVY MINERAL	378
Variations of Heavy Minerals Along the Coast	378
Percentage Variation of Garnet	378
Percentage Variation of Zircon	382
Percentage Variation of Tourmaline	382
Percentage Variation of Rutile	383
Percentage Variation of Hornblende	383
Variations of Heavy Minerals Across the Coast of Block I	383
Percentage Variation of Garnet	384
Percentage Variation of Zircon	384
Percentage Variation of Rutile	384
Percentage Variation of Hornblende	384
Variations of Heavy Minerals Across the Coast of Block II	388
Percentage Variation of Garnet	388
Percentage Variation of Zircon	388
Percentage Variation of Tourmaline	388
Percentage Variation of Hornblende	392

<u>CHAPTER</u>		<u>PAGE</u>
	Variations of Heavy Minerals	392
	Across the Coast of Block III	-
	Percentage Variation of Garnet	392
	Percentage Variation of Zircon	393
	Percentage Variation of Tourmaline	393
	Percentage Variation of Rutile	402
	Percentage Variation of Hornblende	402
EIGHT	INTERPRETATION AND SYNTHESIS	403 - 433
	MEGASCOPIC STUDIES	403
	DEPOSITIONAL DYNAMICS	408
	TEXTURAL PARAMETERS: THEIR SIGNIFICANCE	414
	HEAVY MINERALS: THEIR SIGNIFICANCE	429
	<u>PART IV (EVALUATION OF TERRAIN ATTRIBUTES)</u>	
NINE	EVALUATION OF TERRAIN ATTRIBUTES	434 - 463
	SCOPE AND PURPOSE	434
	TERRAIN CLASSIFICATION	437
	SCHEME AND PROCEDURE	438
	PATTERN A Deccan Trap	442
	PATTERN B Coastal Plain	446
	PATTERN C Muddy Shore	451
	PATTERN D Sandy Shore	455
	PATTERN E Rocky Shore	460

<u>CHAPTER</u>		<u>PAGE</u>
	<u>PART V (EVOLUTIONARY HISTORY)</u>	
TEN	<u>CONTROLS OF COASTLINE EVOLUTION</u>	464 - 474
	STRUCTURAL CONTROL	465
	SEDIMENTOLOGICAL CONTROL	467
	EUSTATIC CONTROL	470
ELEVEN	<u>EVENTS OF COASTLINE EVOLUTION</u>	475 - 480
TWELVE	<u>RESUME</u>	481 - 490
	<u>BIBLIOGRAPHY</u>	491 - 511
