

LIST OF TABLES

<u>TABLES</u>	<u>PAGE</u>
III.1 General geology of Gujarat	41
III.2 Tertiary succession in the Cambay trough	42
IV.1 Data for lineaments observed from toposheet for Par river basin	91
IV.2 Data for lineaments observed from toposheet for Auranga river basin	92
IV.3 Data for lineaments observed from toposheet for Kolak river basin	93
IV.4 Data for lineaments observed from toposheet for Damanganga river basin	94
IV.5 Data for lineaments observed from toposheet for Kalai river basin	95
IV.6 Data for lineaments observed from toposheet for Varoli river basin	96
IV.7 Data for lineament observed from toposheet for all river basins	97
IV.8 Data for lineaments observed from aerial photos for all river basins	98
V.1 Beach morphology of the Study area	123
VI.1.A Morphometric parameters of different river basins	228
VI.1.B Morphometric parameters of different river basins	229

<u>TABLES</u>	<u>PAGE</u>
VI.1.C Morphometric parameters of different river basins	230
VI.2.A Weighted mean length ratio of different rivers	237
VI.2.B Weighted mean length ratio of different rivers	238
VI.2.C Weighted mean length ratio of different rivers	239
VI.3 Weighted mean bifurcation ratio and length of overland flow of different rivers	244
VII.1.A Compositional variations of beach sands of Tithal coast	288
VII.1.B Compositional variations of beach sands of Daman coast	291
VII.1.C Compositional variations of beach sands of Umbargaon coast	296
VII.2.A Statistical parameters of grainsize of beach sands of Tithal coast	304
VII.2.B Statistical parameters of grainsize of beach sands of Daman coast	331
VII.2.C Statistical parameters of grainsize of beach sands of Umbargaon coast	341

<u>TABLES</u>	<u>PAGE</u>
VII.3.A The values in mm of C and M percentiles - Tithal coast	357
VII.3.B The values in mm of C and M percentiles - Daman coast	361
VII.3.C The values in mm of C and M percentiles - Umbargaon coast	363
VII.4.A Percentage variations of transporta- tion modes and their truncations - Tithal coast	368
VII.4.B Percentage variations of transporta- tion modes and their truncations - Daman Coast	372
VII.4.C Percentage variations of transporta- tion modes and their truncations - Umbargaon coast	376
VII.5 Optical properties of heavy minerals	379
VII.6.A Heavy mineral percentages in the beach sands of Tithal coast	385
VII.6.B Heavy mineral percentages in the beach sands of Daman coast	389
VII.6.C Heavy mineral percentages in the beach sands of Umbargaon coast	394
