

ACKNOWLEDGEMENT

The author is deeply grateful to Prof. D.M. Shringarpure for his continual help and encouragement throughout this research work. Under his able guidance and supervision the author was able to complete this work on **"Geological and Ichnological Investigation of Mesozoic Rocks of Khadir Island - Island Belt [Kutch]"**.

Grateful thanks are also equally due to my friend, Dr. Satish Patel who has helped me during various stages and my field and laboratory studies. The final work of compilation is mainly due to ceaseless efforts of Dr. Satish Patel and Mrs. Devangi Mengar for which the author will always remain indebted to them.

Likewise many people to name a few Shri Ramesh Patel and the library staff of periodical section of H.M. Library of M.S. University of Baroda extended me the required help towards tracing of some drawings, maps and provision of necessary literature. The excellent typing work of the thesis has been the effort of Shri S.K. Soni, my friend of Baroda. I thankfully acknowledge all the above help.

The entire work was carried out at the Department of Geology, M.S. University of Baroda, which is acknowledged with gratitude.

Lasting my efforts would have been in vain without the constant encouragement of my parents and especially of my wife.

PANKAJKUMAR J. VAISHNAV
