

LIST OF PLATES

PLATE NO.		PAGE NO.
1	[a] Extrabasinal polymitic breccio-conglomerate -Chhariya Bêt [b] Close up of rhomb-shaped polymictic clasts of Chhariya Bet	65
2	[a] Two sets of joints pattern developed near SE of Chhariya Bet [b] Polymictic breccio-conglomerate with intercalation of sub-arkosic sandstone - Chhariya Bet	67
3	Development of "Bird-eye" structure on Shelly Sandy Limestone Subfacies of Gadhada Sandstone Member	75
4	[a] Photomicrograph showing occurrence of foraminifer and skeletal fragments in Shelly Sandy Limestone [b] Photomicrograph showing occurrence of foraminifer [Texularia] associated with bioclast in Shelly Sandy Limestone	89
5	Development of distinct slump structure in Subarkosic Micritic Sandstone facies of Hadibhadang Dungar Member	94
6	Brick-red coloured vertebrate-bone-fibrous structures developed in Sandy Conglomerate Limestone Subfacies of Hadibhadang Pir Member	99
7	Photomicrograph of sandy micrite exhibiting well-developed rhombic texture of dolomite	103
8	Development of wave ripple [mega-ripple] in wave-rippled shelly allochemic limestone facies9	111

PLATE NO.		PAGE NO.
9	[a] <u>Arenicolites variabilis</u>	142
	[b] [i] <u>Arenicolites statheri</u>	
	[ii] <u>Paleophycus Sp.</u>	
10	[i] <u>Beaconichnus darwinium</u>	145
	[ii] <u>Planolites Sp.</u>	
	[iii] <u>Palaeophycus heberti</u>	
11	<u>Bergaueria Sp.</u>	148
12	<u>Bolonia lata</u>	150
13	<u>Calycraterion samsonowiczi</u>	153
14	[a] <u>Chondrites Sp. A.</u>	156
	[b] <u>Chondrites Sp. B.</u>	
15	<u>Circulichnus montanus</u>	159
16	<u>Cochlichnus serpens</u>	162
17	<u>Compaginatichnus forbesi</u>	165
18	<u>Conostichus wycherlyi</u>	169
19	<u>Crossopodia Sp.</u>	172
20	<u>Ctenopholeus Sp.</u>	174
21	[i] <u>Curvolithus Sp.</u>	177
	[ii] <u>Susterigicchnus Sp.</u>	
22	<u>Cylindrichnus Sp.</u>	180
23	<u>Cylindricum Sp.</u>	183
24	<u>Dactylophycus Sp.</u>	185
25	<u>Dendrotichnium Sp.</u>	187
26	<u>Didymaulichnus Lyelli</u>	190
27	[a] <u>Diplocraterion Parallel</u>	194
	[b] <u>Diplocraterion habichi</u>	
28	<u>Fustiglyphus Sp.</u>	197
29	<u>Gyrochorte comosa</u>	200
30	[i] <u>Gyrolithes polonicus</u>	203
	[ii] <u>Keckia annulata</u>	
31	<u>Halopoa imbricata</u>	205

PLATE NO.		PAGE NO.
32	[a] [i] <u>Helminthopsis abeli</u> [ii] <u>Nereites Sp.</u> [iii] <u>Planolites Sp.</u> [b] <u>Helminthopsis hieroglyphica</u>	208
33	<u>Isopodichnus problematicus</u>	211
34	<u>Kouphichnium Sp.</u>	215
35	<u>Lanicoidichnus metulata</u>	217
36	[i] <u>Lockeia Sp.</u> [ii] <u>Planolites annularis</u>	220
37	<u>Mammilichnus aggeris</u>	222
38	<u>Megagraption irregularie</u>	225
39	[i] <u>Merostomichnites strandi</u> [ii] <u>Planolites Sp.</u>	227
40	<u>Mesichnium benjamini</u>	229
41	<u>Monocraterion tentaculatum</u>	231
42	[a] <u>Ophiomorpha nodosa</u> [b] <u>Ophiomorpha borneensis</u>	241
43	[a] <u>Ophiomorpha irregularie</u> [b] <u>Ophiomorpha Sp. [Box-work burrows]</u>	245
44	[a] [i] <u>Palaeophycus tubularis</u> [ii] <u>Muensteria</u> [b] <u>Palaeophycus striatus</u>	249
45	[a] [i] <u>Palaeophycus heberti</u> [ii] <u>Rhizocorallium jenense</u> [b] <u>Palaeophycus sulcatus</u>	253
46	<u>Paleodictyon imperfectum</u>	256
47	<u>Palmichnium Sp.</u>	259
48	[a] <u>Pelecypodichnus amygdaloides</u> [b] <u>Pelecypodichnus czaranockii</u>	261
49	<u>Phoebichnus Sp.</u>	264
