

LIST OF FIGURES

PAGE NO.

FIGURE No. I:

- | | |
|---|---|
| 1. Location map and Geological setting of Jaisalmer Basin | 3 |
|---|---|

FIGURE No. III

- | | |
|---|----|
| 1. Sample Location map & Traverses covering Jurassic outcrops in Jaisalmer Basin | 22 |
| 2. Generalised lithostratigraphy of Jurassic sediments, Jaisalmer Basin, Western Rajasthan. | 24 |

FIGURE No. IV

- | | |
|--|----|
| 1. Regional Tectonic patterns, North Western India. | 40 |
| 2. Tectonic map of Jaisalmer Basin, Western Rajasthan | 41 |
| 3. Geological map of Jaisalmer area, Western Rajasthan, showing Jurassic outcrops. | 43 |
| 4. Schematic geological section across Jaisalmer Basin. | 44 |

FIGURE No. V

- | | |
|---|----|
| 1. Binary plots : Skewness Vs Standard deviation of Jurassic sediments, Jaisalmer Basin, Rajasthan | 93 |
| 2. Binary plots : Mean diameter Vs Standard deviation of Jurassic sediments. Jaisalmer Basin, Rajasthan | 94 |
| 3. Binary plots : Skewness Vs Standard deviation of Jurassic sediments, Jaisalmer Basin, Rajasthan. | 95 |

FIGURE

PAGE NO.

4. Binary plots : Mean diameter Vs Standard deviation of Jurassic sediments, Jaisalmer Basin, Rajasthan. 97
5. Diagram showing gradational change in sorting and grain size with environment of Jurassic sediments, Jaisalmer Basin, Rajasthan. 98
6. 'CM' pattern : showing sedimentary dynamics of Jurassic sediments, Jaisalmer Basin, Rajasthan. 105
7. Lithological details, petrographic characters and textural attributes of representative samples of Odania Member, Lathi Formation, Jaisalmer Basin, Western Rajasthan. 108
8. Lithological details, petrographic characters and textural attributes of sandstone of Odania Member Lathi Formation, Jaisalmer Basin, Western Rajasthan. 109
9. Lithological details, petrographic characters and textural attributes of upper part of Thaiyat Member, Lathi Formation, Jaisalmer Basin, Western Rajasthan. 111
10. Lithological details, petrographic characters and textural attributes of sandstone of basal part of Hamira Member, Jaisalmer Formation, Jaisalmer Basin, Western Rajasthan. 112
11. Lithological details, petrographic characters and textural attributes of representative sample of clastic sequence of Joyan Member, Jaisalmer Formation, Jaisalmer Basin, Western Rajasthan. 113

11.A	Lithological details, petrographic characters and textural attributes of representative sample of clastic sequence of Fort Member, Jaisalmer Formation, Jaisalmer Basin, Western Rajasthan.	114
12.	Lithological details, petrographic characters and textural attributes of representative sample of clastic sequence of Badabag Members of Jaisalmer Formation, Jaisalmer Basin, Western Rajasthan.	115
13.	Lithological details, petrographic characters and textural attributes of representative sample of Baisakhi Member, Baisakhi Formation, Jaisalmer Basin, Western Rajasthan.	116
14.	Lithological details, petrographic characters and textural attributes of representative sample in Ludharwa Member, Baisakhi Formation, Jaisalmer Basin, Western Rajasthan.	118
15.	Lithological details, petrographic characters and textural attributes of upper part of Ludharwa Member, Baisakhi Formation, Jaisalmer Basin, Western Rajasthan	119
16.	Lithological details, petrographic characters and textural attributes of Kolar Dungar Member, Bhadasar Formation, Jaisalmer Basin, Western Rajasthan.	120
17.	Lithological details, petrographic characters and textural attributes of upper part of Mokal Member, Bhadasar Formation, Jaisalmer Basin, Western Rajasthan.	121

FIGURE No. VII

1. Representative X-ray powder diffraction pattern of $< 2 \mu$, fraction of bulk sample of clastic section of Lathi and Jaisalmer formations, Jurassic sediments, Jaisalmer Basin, Western Rajasthan. 161

2. Representative X-ray powder diffraction pattern of $< 2 \mu$ fraction of bulk samples of clastic section of Jaisalmer, Baisakhi and Bhadasar formations, Jurassic sediments, Jaisalmer Basin, Western Rajasthan. 164

3. Representative X-ray powder diffraction pattern of the $< 2 \mu$ fraction of carbonate sediments of different members of Jaisalmer Formation, Jaisalmer Basin, Western Rajasthan. 165

4. Histograms of distribution of heavy mineral in Lathi, Jaisalmer and Baisakhi formations. 170

5. Histograms of distribution of heavy minerals in Baisakhi and Bhadasar formations. 172

6. Variation diagram of the Major element oxides in clastic sequence of Jurassic sediments. 189

- 6A. Variation diagram of the average Major element oxides in clastic sequence of Jurassic sediments. 190

7. Variation diagram of the Major elements oxides in carbonate section of Jaisalmer Formation. 191

- 7A. Variation diagram of the Average element oxides in carbonate section of Jaisalmer Formation. 192

8.	Ternary plot of Si-Al-Fe Ratio of clastic sequence of Jurassic sediments (After Moore & Dennen, 1969).	195
9.	Fe_2O_3 - MgO - TiO_2 diagram of clastic sequence of Jurassic sediments (after Cordie, 1967)	196
10.	CaO - Na_2O - K_2O diagram for clastic sequence of Jurassic sediments (After singh et. al. 1990).	197
11.	Chemical composition of clastic sequence in relation to tectonic setting (After Blatt, et. al; 1972).	199
12.	Na_2O Vs K_2O plot for clastic sequence of Jurassic sediments.	200
13.	Plot of Boron and Gallium of Jurassic sediments of Jaisalmer Basin. (After Degens et. al; 1959).	21

FIGURE No. VIII

1.	Histogram showing types of grain contacts, Lathi & Jaisalmer formations.	219
2.	Histogram showing types of grain contact, of Baisakhi & Bhadasar formation.	220

FIGURE No. IX

1.	Regional Variation of Microfacies and depositional environments of carbonate section of Jaisalmer Formation, Jaisalmer Basin, Western Rajasthan.	257
