

LIST OF PLATES

<u>PLATE NO.</u>		<u>PAGE NO.</u>
V.1a	Wave cut platform of Gaj rocks at Methla	55
V.1b	Rocky platform of miliolite with a cliff at Gopnath	55
V.2a	Cliffy headland and crescentic beach at Gopnath	56
V.2b	Cliffs formed by wave action on consolidated dune of miliolite at Methla	56
V.3	Development of cave in Gaj rocks by strong wave action. Miliolite dunes resting over Gaj rocks from cliffs at Methla	58
V.4	A miliolite stack at Madhuban	58
V.5	A miliolite quarry in a consolidated dune near Jhanjhmer	59
V.6	A well developed beach with sandy ridge in the background near Methla	59
V.7	A panoramic view of the undulating rocky backshore coastal plains near Alang	65
V.8a	Rocky platform with a steeply inclined lateritic cliff at Alang	67
V.8b	Rocky platform of Gaj rocks at Kuda	67
V.9	A panoramic view of the backshore coastal dunes and intertidal mudflats at Hathab Bungalow	69
V.10	View of the Bhavnagar creek showing a small tidal channel in the foreground and extensive mudflats with mangroves in the background	72
V.11	Tidal creek of Baniya Khadi near Golatalav with raised mudflats in the background	75
V.12	A view of the gradientless mudflats at Motitalav near Bhavnagar which gets inundated under monsoonal stormy conditions	75

<u>PLATE NO.</u>		<u>PAGE NO.</u>
V.13	Intertidal mudflats at Tankari	84
V.14	Raised mudflats at Devla	84
V.15	Raised mudflat now reclaimed into agricultural land at Devjagan temple	86
V.16	Sandy beach at Dahej jetty	86
V.17	A tidal channel within the mudflats at Dandi.	94
V.18	Well developed sandy beach at Hazira	94
V.19	Stabilised older coastal dunes at Hazira	96
V.20	Eroded older dune ridges at Vasna. Windblown sand resting against these dissected dunes.	96
V.21	Northwestern part of Piram Island showing a vast intertidal rocky platform	100
V.22	Southwestern part of Piram Island showing rocky intertidal area	100
V.23	Luxuriant growth of mangroves at South Piram	102
V.24	Well developed beach with a cliff at South Piram	102
VI.1	Dug wells on the periphery of the pond at Elao	121
VI.2	Dug wellson the periphery of the pond at Veluk	121
VII.1	A typical surface storage pond augmenting recharge to unconfined coastal aquifers at Ghogha	134
VII.2	A pond and pond supported dug wells serving domestic need of the village Vadgam	139
VII.3	A number of dug wells in and around the pond at Daheda	139

<u>PLATE NO.</u>		<u>PAGE NO.</u>
VII.4	Freshwater dugwells located within and around a pond at Nada	143
VII.5	A dug well located near the pond at Padriya	143
VII.6	An artificial polypropylene lined pond for sweet water storage at Rahtalav	164
VII.7	View of a tobacco field reflecting the excellent agricultural conditions at Bhadran	164
VIII.1&2	SEM photograph of clay fractions (1) Methla (2) Piram East	197
VIII.3&4	SEM photograph of clay fractions (3) Dahej (4) Hazira	198
