

## CONTENTS

### Page No.

#### CHAPTER-I

##### INTRODUCTION

Physiography & Drainage	..	2
Climate	..	3
Object & scope of work	..	4
Methodology	.	6

#### CHAPTER- II.A

##### BACKGROUND INFORMATION

Previous studies	..	10
Synthesis of previous data on adjacent areas	..	14

#### CHAPTER-II.B

##### GEOLOGICAL SET UP OF THE AREA

Regional Geology	..	18
Development of basin configuration	..	20

#### CHAPTER-III

##### GEOMORPHOLOGY

Landscape analysis	..	31
Geomorphic landforms and their relations.		•
Morphographical study	.	32
Morphogenetical study	..	39
Morphochronological analysis	..	41
Neotectonics	..	42
Morphostructures	..	46

## CHAPTER-IV

## STRUCTURAL CONSIDERATIONS

Genesis of the basin	..	50
Plate Tectonics vis-a-vis Cambay basin	..	51
Structural features of the study area	..	57

## CHAPTER V

STRATIGRAPHY AND LITHOLOGY  
OF THE ROCK UNITS

..	67
----	----

## CHAPTER VI

SEDIMENTOLOGICAL STUDIES OF THE  
SANDS OF KADI AND KALOL FORMATIONS.

Methods of investigation	..	86
Textural attributes of the formation	..	91
Discussion of results of :		
Univariate analysis	..	92
Bivariate analysis	.	96
C-M pattern analysis	..	99
Log probability curve analysis	..	102
Heavy mineral analysis	..	107

## CHAPTER VI.A

ENVIRONMENTAL STUDY OF SAND BODIES AND  
THEIR GEOMETRY BY ELECTROLOGS.

Kalol formation	..	111
Kadi formation	..	113

## CHAPTER VII

## AN EVOLUTIONARY MODEL OF THE BASIN ..

115
-----

## CHAPTER VIII

## RESUME'

..	125
----	-----

BIBLIOGRAPHY	..	132
ACKNOWLEDGEMENTS	..	148
APPENDIX-I - Locality Index	..	149
APPENDIX-II - List of plates	.	152

---
