

LIST OF PLATES

<u>PLATE</u>		<u>PAGE</u>
1.1	Panoramic view of Bhimtal valley	2
4.1	Photomicrograph of sheared granophyre	60
4.2	Photomicrograph of sheared granitic rock	60
4.3	Photomicrograph of sodagranite	62
4.4	Photomicrograph of unsheared granophyre	62
4.5	Photomicrograph of corroded quartz phenocrysts in granophyric rock	63
4.6	Field photograph of Bouldery quartzite (sub-graywacke)	69
4.7	Photomicrograph of angular megacrysts of quartz in an argillo-volcanic matrix	69
4.8	Photomicrograph of (a typical) non pebbly sub-graywacke	71
4.9	Photomicrograph of sub-graywacke showing secondary overgrowth of quartz	71
4.10	Photomicrograph showing the texture of a mature quartzite	72
4.11	Photomicrograph showing patches of calcareous matter in purple slate	72
4.12	Photomicrograph of limestone	74
4.13	Photomicrograph of purple slate	74
5.1	Field photograph of foliated and jointed traps	88
5.2	Field photograph of a F_1 fold	88
5.3	Photograph of a specimen of highly sheared and crumpled granophyre	95

<u>PLATE</u>		<u>PAGE</u>
6.1	Photomicrograph of a non-foliated diabase showing intersertal texture	112
6.2	Photomicrograph of a diabase showing relict ophitic to subophitic texture	114
6.3	Photomicrograph of a diabase showing partial saussurization of feldspars	114
6.4	Photomicrograph of diabase showing preferred orientation of feldspar laths	116
6.5	Photomicrograph of foliated diabase	116
6.6	Photomicrograph of glassy variety of spilite basalt	118
6.7	Photomicrograph of glassy spilite basalt	118
6.8	Photomicrograph of glassy variety of spilite	119
6.9	Photomicrograph of an amygdale in spilite basalt	119
6.10	Photomicrograph of spilite basalt	121
6.11	Photomicrograph of spilite basalt	121
6.12	Photomicrograph of a fine grained spilite basalt	122
6.13	Photomicrograph of spilite basalt	124
6.14	Photomicrograph of spilite basalt	124
6.15	Photograph of a specimen of granulated variety of spilite	125
6.16	Photomicrograph of the granulated spilite	125
6.17	Photomicrograph of scaly and platy chlorites in tuffs	128

<u>PLATE</u>		<u>PAGE</u>
6.18	Photomicrograph of sheared tuff	130
6.19	Photomicrograph of a rather rare thin section of unmetamorphosed tuff	132
6.20	Photomicrograph of sheared tuff	134
6.21	Photomicrograph of sheared tuff	134
6.22	Photomicrograph of tuffite	136
6.23	Photomicrograph of a typical tuffite	136
6.24	Photomicrograph under high power of chlorite-sericite layers in tuffite	137
6.25	Photomicrograph of tuffite	137
6.26	Photomicrograph of an amygdale in spilite	143
