

LIST OF FIGURES

<u>FIGURE</u>		<u>PAGE</u>
1.1	Location Map	2
2.1	The General Subdivisions of the Himalaya	17
2.2	Section across Central Himalayas(Strachey)	20
2.3	Section through the Simla Himalaya (Pilgrim and West)	24
2.4	Diagrammatic section across the Kashmir Himalaya (Wadia)	29
2.5	Section through the Krol Belt (Auden)	33
2.6	Tectonic section across the Garhwal Himalaya (Auden)	34
2.7	Geological sketch map of the region between Ramgarh and Ranikhet in Kumaon Himalaya (Merh, Vashi and Patel)	43
3.1	Geological map of Garampani area	At the back of the thesis
3.2	Structural map of Garampani area	
3.3	General sketch map compiled from the works of N.M.Vashi, J.P. Patel, O.K. Shah, C.P. Shah, D. Pal and S.G. Patel.	
4.1	Section showing Ramgarh thrust as southern limb of synformally folded Almora thrust (Gansser)	85
4.2	Generalised tectonic map of Naini Tal- Almora-Kausani area (Powar, Gairola and Dixit)	86
4.3	Section showing succession from Lariakanta to Bhowali (Heim & Gansser)	91
5.1	Map showing the sub-areas	107

<u>FIGURE</u>	<u>PAGE</u>
5.2 Stereograms of sub-area 1	109
5.3 Stereograms of sub-area 2	110
5.4 Stereograms of sub-area 3	113
5.5 Stereograms of sub-area 4	115
5.6 Stereograms of sub-area 5	116
5.7 Stereogram of sub-area 6	118
5.8 Collective stereogram of sub-areas 4, 5 and 6	119
5.9 Stereograms of sub-area 7	121
5.10 Collective stereogram of sub-areas 6 and 7	122
5.11 Stereograms of sub-area 8	124
5.12 Stereograms of sub-area 9	125
5.13 Stereograms of sub-area 10	127
5.14 Sketch map showing the fold pattern	129
5.15 Collective stereograms showing mean fold axes and related lineations in all sub-areas	At the back of the thesis
