

LIST OF FIGURES

1. Geological map.	0	
2. Structural map.	0	At the back of the thesis
		<u>Between pages</u>
3. Location map.		1-2
4. Correlation Diagram		173-174
5. Stereograms showing the flexural-slip (concentric) folding in Shivarajpur Quartzites and Phyllites.		210-211
6. Stereograms showing effect of Champaner folding.		210-211
7. Stereograms showing orientation of axial planes.		211-212
8. Stereograms showing the orientation of the axial plane cleavages.		211-212
9. Schematic diagrams showing development of various types of lineations.		211-212
10. Stereograms showing joint pattern.		214-215
11. Fold with conjugate joint systems showing vertical, diagonal pattern.		215-216
12. Variation diagram based on chemical composition vs distance.		247-248
13. Von Wolff's Q-L-M diagram		248-249
