

LIST OF PLATES

<u>Plate</u>		<u>Page</u>
I	Graphite schist showing alternate grayish brown and light yellowish bands (Ankli).	45
II	Quartz veins in graphite schist (Ankli).	45
III	Crystalline limestone (Ankli).	48
IV	Gray granite (Ankli)	48
V	Open-cast graphite mine (Sewania).	49
VI	Graphite schist (Sewania)	49
VII	Sandy layers within the graphite schist (Sewania).	51
VIIIA.	Granitic exposure in mine section(Sewania)	52
VIIIB.	Pink granite (Sewania)	52
IX	Local folding in graphite schist (Virpur).	54
X	Quartz-mica-graphite schist (Virpur).	54
XI	Alternate layers of graphite schist and quartz-mica schist (Virpur).	56
XII	Biotite schist (Virpur).	56
XIII	Open-cast graphite mine (Muthai)	58
XIVA.	Wall-like granite exposure in mine section (Muthai).	59
XIVB.	Granite (Muthai)	59
XV	Quartz-mica-graphite schist (Muthai)	60
XVI	Vein of pegmatite in graphite schist (Muthai).	60

<u>Plate</u>		<u>Page</u>
XVII	Graphite schist (Chaena)	63
XVIII	Quartz-mica-graphite schist (Jaloda).	63
XIX	Quartzite (Jaloda).	65
XX	Biotite schist (Jhab-Redhana)	65
XXI	Sharp contact between graphite schist and pegmatitic vein (Muthai).	73
XXII	Graphite schist (Ankli) showing schistose structure (Photomicrograph: Crossed nicols, X60).	79
XXIIIA.	Graphite schist (Ankli) showing graphite flakes disseminated in grayish-brown band (Photomicrograph: Crossed nicols, X60).	80
XXIIIB.	Graphite schist (Ankli) showing graphite flakes disseminated in grayish-brown band (Photomicrograph: Polarised light, X60).	80
XXIVA.	Graphite schist (Ankli) showing graphite flakes disseminated in light whitish yellow band (Photomicrograph: Crossed nicols, X60).	81
XXIVB.	Graphite schist (Ankli) showing graphite flakes disseminated in light whitish yellow band (Photomicrograph: Polarised light, X60).	81
XXV.	Graphite gneiss (Ankli) showing presence of tremolite (Photomicrograph: Crossed nicols, X60).	83
XXVI	Crystalline limestone (Ankli) showing presence of tremolite (Photomicrograph: Crossed nicols, X60).	83
XXVII	Crystalline limestone (Ankli) showing forsterite (Photomicrograph: Crossed nicols, X60).	84

<u>Plate</u>		<u>Page</u>
XXVIII	Gray granite of Ankli (Photomicrograph: Crossed nicols, X60).	84
XXIX	Pink granite of Ankli (Photomicrograph: Crossed nicols, X60).	87
XXX	Graphite schist (Sewania) showing schistose structure (Photomicrograph: Polarised light, X60).	87
XXXI	Graphite schist (Sewania) showing layers of graphite-mica and calcite (Photomicrograph: Crossed nicols, X60).	89
XXXII	Graphite schist (Sewania) showing quartz grains enclosed by calcite and graphite (Photomicrograph: Crossed nicols, X60).	89
XXXIII	Graphite schist (Sewania) showing calcite veins along the schistosity (Photomicrograph: Crossed nicols, X60).	91
XXXIV	Pink granite of Sewania (Photomicrograph: Crossed nicols, X60).	91
XXXV	Graphite schist (Muthai) showing dissemination of graphite flakes (Photomicrograph: Crossed nicols, X60).	95
XXXVI	Graphite schist (Muthai) showing calcite veinlet across the foliations (Photomicrograph: Crossed nicols, X60).	95
XXXVII	Graphite schist (Muthai) showing microflakes of graphite (SEM, X800).	97
XXXVIII A.	Granite of Muthai (Photomicrograph: Crossed nicols, X60).	99
XXXVIII B.	Gray granite of Muthai (Photomicrograph: Crossed nicols, X60).	99
XXXIX	Graphite schist (Virpur) showing schistose structure (Photomicrograph: Polarised light, X60).	101

<u>Plate</u>		<u>Page</u>
XL	Graphite gneiss (Virpur) showing gneissic structure (Photomicrograph: Crossed nicols, X60).	101
XLI	Graphite schist (Virpur) showing presence of sillimanite (Photomicrograph: Crossed nicols, X60).	103
XLII	Biotite schist of Virpur (Photomicrograph: Crossed nicols, X60).	103
XLIII	Quartz-mica-graphite schist (Chaena) showing fine-grained, schistose structure (Photomicrograph: Crossed nicols, X60).	107
XLIV	Quartz-mica-graphite schist (Jaloda) showing schistose structure (Photomicrograph: Crossed nicols, X60).	107
XLV	Quartzite (Jaloda) showing mozaic texture (Photomicrograph: Crossed nicols, X60).	110
XLVI	X-ray diffraction photograph of Sewania graphite.	120
XLVII	X-ray diffraction photograph of Muthai graphite.	120

Panaromic view of Muthai
