

Acknowledgement

This doctoral thesis could not have been materialized without the support and guidance of many individuals and thus, I would like to acknowledge their contribution.

First and foremost, I would like to express my sincere and deepest gratitude towards my parents and my family who supported me and will keep doing so unconditionally. I am indebted towards them forever for letting me chase my dreams. I don't thank them often, but a simple thank you will never suffice the sacrifices they have made for my brother and me. I also extend my gratitude towards all my siblings and my sister-in-law. I would also like to thank my grandmother; the backbone of my family and I am forever indebted to the source of my inspiration, my grandfather, who I hold in high regards. His inspiration will always live within me.

I am extremely thankful to my teacher and supervisor Dr. Arun Anand, for always extending his support and cooperation. I thank him for providing each of his student the space to think beyond the conventional.

This acknowledgement will be incomplete if I don't mention my brother for life, my confidant, the person who believed in my potential through and through; Vismay bhaiya. It has been an honour to have worked besides him and I have learnt a great deal from him and will keep doing so throughout life. He has helped me open up new horizons of my perspective. I am eternally grateful for being able to share such a pious bond with him. His constant moral support and contribution towards the work since the very beginning of my journey is so immense that words will never do justice. He has been with me rock solid through thick and thin and I cannot imagine this thesis coming to life without him.

A huge thanks to Nirav and Parth, my young brothers and my colleagues in the lab. Both of them made this journey full of fun and happiness and provided a stress-free environment and always lent a helping hand.

My appreciation goes to my seniors in the lab; Priyanka madam, Nimit bhai and my juniors Chetna, Arjun and Subhash. I am thankful that I got so much to learn from all of them. I also appreciate the encouragement offered by all the Ph.D. scholars from the department; Akshay

bhai, Kevil bhai, Avani didi, Nakul bhai, Shivani, Dhaval bhai, Kavita madam, Priyanka and Margi.

My sincere thanks to the head of the department Dr. C G Limbachiya, and Dean, Prof. C N Murthy and all the teachers in the department.

Last but not the least I extend my thanks to my closest friends Hetvi and Sonakshi who stood by me rock solid, always believing in me even when I didn't.

Mugdha Joglekar
