

C O N T E N T S

CHAPTER		PAGE
	Introduction	1
I	Habits habitats and fishery of migratory (anadromous) <u>H. ilisha</u> and non-migratory marine <u>H. toli</u> .	7
II	Studies in the cyclic changes in the hypothalamo neurohypophyseal neurosecretory system of (anadromous) migratory <u>Hilsa ilisha</u> (Ham.) and in the nonmigratory <u>Hilsa toli</u> (Cuv. & Val.) during different phases of the life cycle.	14
III	Histochemical studies on the distribution of cholinesterases in the Nucleus Pre-opticus, Hypothalamo-neurohypophyseal pathways and in Nucleus Lateralis Tuberis of migratory <u>Hilsa ilisha</u> (Ham.) and of nonmigratory <u>Hilsa toli</u> (Cuv. & Val.) in relation with the cyclic changes in Hypothalamic neurosecretory system.	82
IV	Histological studies of the pituitary gland of the migratory(anadromous) <u>Hilsa ilisha</u> (Ham.) and non-migratory <u>Hilsa toli</u> (Cuv. & Val.) during migration, sexual maturation and during different phases of the life cycle.	91
V	Histological studies on cyclic changes of Thyroid gland of migratory(anadromous), <u>Hilsa ilisha</u> (Ham.) and non-migratory <u>Hilsa toli</u> (Cuv. & Val.)	163
VI	Studies on the adrenomedullary cells (chromaffin cells) of migratory <u>H. ilisha</u> (Ham.) and non-migratory <u>H. toli</u> (Cuv. & Val.)	184

CHAPTER		PAGE
VII	Histological and Histochemical studies of adrenocortical tissues of migratory(anadromous) <u>Hilsa ilisha</u> (Ham.) and non-migratory <u>Hilsa toli</u> (Cuv. & Val.)	205
VIII	Histological studies on the Caudal neurosecretory system of migratory <u>Hilsa ilisha</u> (Ham.) and marine <u>Hilsa toli</u> (Cuv. & Val.)	226
IX	Cholinesterases in the Caudal neurosecretory system of migrating <u>Hilsa ilisha</u> (Ham.) and in non-migratory <u>Hilsa toli</u> (Cuv. & Val.)	265
X	Summary	282
	Bibliography	289
