

ACKNOWLEDGEMENT

It is with a deep sense of gratitude and indebtedness that I express my sincere thanks to Professor R.V. Shah, Head, Department of Zoology, M.S. University of Baroda, Baroda, for suggesting the problem and for his constant guidance and encouragement throughout the tenure of this work.

I wish to record my grateful thanks to Dr. Bonny Pilo and Mr. A.V. Ramachandran, for their kind cooperation and help rendered in preparation of this thesis.

Finally, I thank all my colleagues and friends in the department for their kind help in preparation of the thesis.
