

ACKNOWLEDGEMENTS

It gives me great pleasure to record my deep sense of gratitude to Dr. J. C. George, Professor and Head, Department of Zoology, Faculty of Science, M. S. University of Baroda, Baroda, for the suggestion of the problem and the inestimable encouragement and guidance offered throughout the course of this work.

My sincere thanks are due to Dr. (Miss). N. J. Chinoy and Dr. K. S. S. Nair of Department of Zoology who have taken pains to help me prepare this thesis.

I am indebted to the Council of Scientific and Industrial Research, Government of India, for awarding me a Junior Research Fellowship for three years during the tenure of which this work was completed.

I take this opportunity to thank my colleagues and friends for the fertile environment I have enjoyed in the Department, for the many ideas they have contributed and for the valuable help rendered.
