

## A C K N O W L E D G E M E N T

Any research work is the outcome of the dedicated efforts by a team and in such an activity it becomes a difficult task for an investigator to attribute the credit of the research to any individual in particular. While I feel equally indebted to every member of the academic community for the contribution they have made in the successful completion of this research work, I have the great pleasure in expressing my deep gratitude to the following persons/institutions in particular :

- The able and generous guidance given to the study by professor G. R. Sudame, CASE, M.S.University of Baroda.

- The kind help provided by professor M.S. Yadav Head CASE, M.S. University of Baroda in getting me registered at the CASE for the research study.

- The kind and generous help extended by National Council of Educational Research and Training, Sri Aurobindo Marg, New Delhi-16 by providing me the research grant and the study leave for conducting this research work.

- The whole - hearted co-operation and support extended by the students, teachers and the schools where the study was conducted.

- (School/College/University) Chemistry teachers and the experts in science education who helped to validate the tests of this study.

- Well wishers at the Faculty of Education & Psychology M.S.University Baroda who helped me in innumerable ways to complete the research work.

BARODA.
