

ACKNOWLEDGEMENTS

I wish to express my sincere gratitude to Prof. Surekha Devi for the generous guidance, assistance, and encouragement throughout my research work and for the many opportunities she has given me to advance my career in science.

My special thanks are extended to Dr. J.D.Desai, Sr. Mgr., IPCL for his competent technical assistance on this work.

I would like to acknowledge the help and cooperation of all my seniors (Drs.), Pradip Patel, C.Ramakrishna, Sanjay Mehta, D.Kar, Rajkumar, Mr. T.P.Balan and (Mrs) Heena Dave, AJA Sophia for making useful suggestions which helped me during the research work.

I am thankful to my colleagues Bhautik Shah, Chirag Shah, Mahesh Vala, Rajan Bosco, Prakash Naik and (Mrs) Yamini Shah, Sangita Pai, Anagha Purohit for the help and cooperation during my entire work.

I remain grateful to my research colleagues (Drs.) Ishit Thakore, (Mrs.) Sonal Thakore, Alpesh Patel, Ragesh Brahmbhatt, Naveen, and Paresh Sanghvi who have always been inspiring and encouraging me.

Grateful acknowledgment is made to the Indian Petrochemicals Corporation Limited (IPCL), for permitting me to do research work.

The library staff of the IPCL Research Center, helped materially in respective literature surveys.

I wish to acknowledge all, who rendered their direct or indirect support during my research work.

Finally, I must admit that my wife Gopi and son Kunal observed marvelous patience in sparing several weekends and evenings which kept absolutely occupied with this write up and I express my deep sense of gratitude to them.

(Sunil Soni)
