5.	Features of Different Remote Sensing Satellites	29
6.	Indian Imaging Systems (CARG, 2002)	31
7.	GPS Readings at Different Locations of the Study Area	54
8.	Interpretation Key for Visual Interpretation of Predominant Vegetation Types	58
9.	GPS Readings of JFM Plantations of Study Area	61
10.	Assigning Point Values to Different Ecological Parameters	67
11.	Assigning Point Values to Different Socio-economic Parameters	68
12.	Principal Component Eigen Vector Matrix Resulting from General Sampling of Landuse/Landcover	78
13.	Classification Accuracy Assessment of Digital Analysis	83
14.	Landuse/Landcover Statistics of the Study Area	92
15.	Classification Accuracy Assessment of Visual Interpretation	99
16.	Potential JFM Villages of Narmada District	104
17.	Location of Selected Villages	108
18.	Profile of JFM Villages Selected for Micro-level Analysis	109
19.	Portfolio of Forest Protection Institute (FPI) in JFM Villages	112
20.	List of Forest Products Available in Selected JFM Villages	118
21.	Plantation Analysis of JFM Villages	119
22.	Indices of Diversity and Dominance	134
23.	Sorenson's Similarity Index for Tree Species of JFM Areas	136
24.	Sorenson's Similarity Index for Herb Species of JFM Areas	137
25.	Secondary Plantation Analysis of JFM Villages	138
26.	Demand of Fodder from Each JFM Village	140
27.	Demand of Fuel Wood in the JFM villages	142
28.	Weighted Sum Rank for Ecological Parameters of the Study Villages	145
