Chapter	Section	Content	Page No.
→	Introduct	tion	1
,	Correlati	on Between Air Pollution And Meteorological Parameters For	23
	1.1	Introduction	23
	1.1.1	Importance Of Air Pollution And Meteorology Correlation	23
	1.2	Materials and Methods	25
	1.2.1	Study Area	25
	1.2.2	Study parameters	27
	1.2.3	Statistical Analysis By Application On SPSS	32
1	1.2.4	Application On Shaft Diagrams	39
	1.2.5	Application On Windrose	40
	1.2.6	Application On ISCST3 Models to give Isopleth	40
	1.3	Results and Discussion	42
	1.3.1	Annual Observations	44
	1.3.2	Summer Observations	51
	1.3.3	Monsoon Observations	62
	1.3.4	Winter Observations	71
	1.4	Conclusion	80
2	Evaluation Of Respiratory Illness Risks In A Community-Based Study With Special Reference To Asthma In Vadodara City		
	2.1	Introduction	81
_	2.2	Materials and Methods	85
	2.3	Results and Discussion	91
	Introduction Correlation Between Air Pollution And Meteorological Parameters For Vadodara City, Gujarat - Trend Analysis For 2005 – 2007. 1.1 Introduction 1.1.1 Importance Of Air Pollution And Meteorology Correlation 1.2 Materials and Methods 1.2.1 Study Area 1.2.2 Study parameters 1.2.3 Statistical Analysis By Application On SPSS 1.2.4 Application On Shaft Diagrams 1.2.5 Application On Windrose 1.2.6 Application On ISCST3 Models to give Isopleth 1.3 Results and Discussion 1.3.1 Annual Observations 1.3.2 Summer Observations 1.3.3 Monsoon Observations 1.3.4 Winter Observations 1.3.4 Winter Observations 1.4 Conclusion Evaluation Of Respiratory Illness Risks In A Community-Based Study With Special Reference To Asthma In Vadodara City 2.1 Introduction 2.2 Materials and Methods	98	
	Incidence Of Respiratory Illness In Relation With The Medical Sale In		
	3.1	Introduction	99
3	3.2	Materials and Methods	102
	3.2.1	Study parameters	102
	3.3	Results	107
	3.4	Discussion	134
	3.5	Conclusion	139

Chapter	Section	Content	Page no.
	A Correlation Between Meteorological Factors. Pollution Level And Asthma Exacerbations In Vadodara City – 2007 To 2010		
4	4.1	Introduction	140
	4.2	Materials and Methods	146
	4.2.1	Study parameters	146
	4.2.2	Application	146
	4.3	Results	148
	4.3.1	Summer Observations	158
	4.3.2	Monsoon Observations	166
	4.3.3	Winter Observations	174
:	4.4	Discussion	182
	4.5	Conclusion	. 186
5	Application Of Peak Expiratory Flow Meters For The Asthma Management Strategy In Identified Group Of Patients – 2007 To 2010.		
	5.1	Introduction	187
	5.2	Materials and Methods	192
	5.3	Results and Discussion	194
	General Consideration		196
