

LIST OF TABLES

SR. NO.	TITLE	PAGE NO.
1.	Details of vegetable crops grown in kitchen garden	13
2.	Overview of the scales with reliability value	65
3.	Categorization and range of scores for Extent of Problems experienced by the respondents regarding their existing Kitchen Garden	68
4.	Categorization and range of scores for Extent of knowledge of the respondents regarding the Household Compost	68
5.	Proposed Kitchen Garden Designs	69
6.	Distribution of the respondents according to their monthly family income	72
7.	Distribution of the respondents according to their type of family	73
8.	Distribution of the respondents according to the number of family members	74
9.	Distribution of the respondents according to the type of house	75
10.	Distribution of the respondents according to the type of kitchen garden	76
11.	Distribution of the respondents according to the area of the garden (in sq.ft.)	77
12.	Distribution of the respondents according to the shape of the garden	77
13.	Distribution of the respondents according to the preparation of household compost at home	78
14.	Distribution of the respondents according to the problems experienced by respondents related to sunlight in their kitchen garden	80

15.	Extent of problems experienced by the respondents related to sunlight in their kitchen garden.	81
16.	Distribution of the respondents according to problems experienced by respondents related to water and drainage in kitchen garden	82
17.	Extent of problems experienced related to water and drainage in kitchen garden.	83
18.	Distribution of the respondents according to problems experienced by respondents related to soil in kitchen garden	84
19.	Extent of problems experienced by the respondents related to soil in kitchen garden	84
20.	Distribution of the respondents according to problems experienced by respondents related to food crops and rotation in kitchen garden	85
21.	Extent of problems experienced by the respondents related to food crops and rotation in kitchen garden.	87
22.	Distribution of the respondents according to problems experienced by respondents related to pollution in kitchen garden.	88
23.	Extent of problems experienced by the respondents related to pollution in kitchen garden	88
24.	Distribution of the respondents according to problems experienced by respondents related to Seedlings in kitchen garden	89
25.	Extent of problems experienced by the respondents related to Seedlings in kitchen garden	91
26.	Distribution of the respondents according to problems experienced by respondents related to plants in kitchen garden	92
27.	Extent of problems experienced by the respondents related to plants in kitchen garden.	93

28.	Distribution of the respondents according to problems experienced by respondents related to leaves in kitchen garden	94
29.	Extent of problems experienced by the respondents related to leaves in kitchen garden	96
30.	Distribution of the respondents according to problems experienced by respondents related to bud ends in kitchen garden	97
31.	Extent of problems experienced by the respondents related to bud ends in kitchen garden	98
32.	Distribution of the respondents according to problems experienced by respondents related to fruits in kitchen garden.	99
33.	Extent of problems experienced by the respondents related to fruits in kitchen garden	100
34.	Frequency and Percentage Distribution of the respondents regarding the extent of problems experienced in kitchen garden	101
35.	Distribution of the respondents according to their knowledge regarding benefits of household composting	103
36.	Extent of knowledge of the respondents regarding benefits of household composting	106
37.	Distribution of the respondents according to knowledge regarding types of household composting.	107
38.	Extent of knowledge of the respondents regarding types of household composting	107
39.	Distribution of the respondents according to knowledge regarding materials for household composting in kitchen garden	108
40.	Extent of knowledge of the respondents regarding materials for household composting	110

41.	Distribution of the respondents according to knowledge regarding process and preparation of household composting in kitchen garden	111
42.	Extent of knowledge of the respondents regarding process and preparation of household composting.	113
43.	Frequency and percentage distribution of the respondents according to their knowledge regarding household composting in kitchen garden	114
44.	Proposed Kitchen Garden Designs	115
