

Dedication

I dedicate my thesis to these precious souls, My parents.

Acknowledgement

Standing at the concluding stage of the long thought and travelled journey, as I successfully take my first step into the world of science, I would like to extend my sincere regards and gratitude to all those that were a positive part of this tumultuous journey.

*To begin with I bow down to almighty “**Lord Ganesh**” for bestowing me with constant blessings and planting in opportunities as I travelled my way. For giving me all the strength and courage to walk the tempestuous roads and emerging as a strong individual who believes in oneself. I pray him to be alongside forever as he has always been.*

*I would like to express sincere gratitude to my guide **Dr. Ranjitsinh V. Devkar** who has been wonderful man to work with. Being with him, I have learnt skills of management, planning, reading in-between the lines for both books and people, strategy making and of course enjoying the work. I immensely value the freedom he gave me for shaping up an idea and executing it, for the trust he showed in my work and for always being available when anything went south. The support and guidance you have offered throughout resulted in valuable accomplishments in my tenure. I shall always be thankful for that.*

*I would like to acknowledge all the former Head of Department of Zoology that lead the department during my tenure, **Prof. P. C. Mankodi, Prof. Dolly Kumar, Prof. Pragna Parikh, and Prof. Kauresh Vachhrajani** for their support throughout. I also acknowledge current Head Department of Zoology, **Prof. B. Suresh** for always being supportive and encouraging. I would also like to pay my gratitude to late **Prof. Vihas T Vasu** for welcoming me with open arms and having all those memorable chai pe*

charcha sessions, discussing all scientific and non-scientific matters. I appreciate the homely vibes he always extended. You will be missed sir.

*With utmost gratitude I acknowledge all the members at my alma matter, Department of Biochemistry, that have never failed to render help whenever needed. I sincerely thank **Prof. Rajesh Singh** for letting me use the instrumental facility of his lab and for agreeing to be the member of Doctoral Committee for my LTMT fellowship. I also pay my sincere regards to my master's degree dissertation guide **Dr. Ravi Vijayvargia** and **Dr. Laxmipriya** for helping me out with my work as and when required and for always treating me as one of their own.*

*I also thank my non-teaching staff of the department **Rajesh Nayak, Shailesh Chikne, Hemant Parmar, Hitesh Suthar, Urmilaben Patel and Gulab Yadav** for their generous cooperation which lead to smooth function of administrative work. I appreciate how you always had 1 cup of tea saved for me whenever I was working and making sure to give it to me in lab if I couldn't make it to office.*

*I would like to thank **DST-PURSE** and **Lady Tata Memorial Trust** for JRF and SRF Fellowships. I thank **B4 young scientist program** for funded workshop and opportunity to learn-in-person from faculties of the Harvard University. I also pay my sincere regards to **American Heart Association (AHA)** for giving me an opportunity to present my work and awarding it with the prestigious **Paul Dudley Award** and recognizing it as best work from India in BCVS 2021.*

*Party is not the place it is people! and I had some wonderful people with me who accompanied me in this journey. This passage is probably the one with utmost emotions attached. To begin with I acknowledge my seniors with not-so-senior vibe **Dr. Kangkan Sarma** and **Dr. Ruzbeh mirza** for welcoming me into the gang and for always looking*

out for me. Further I would like to thank my senior **Dr. Kavita Shirsath** for providing a healthy lab environment, discussion and for yum yum dabbas that she used to get. I also thank another senior with not-so-senior vibe **Dr. Apeksha Joshi** for exuding such friendly vibes and helping whenever need be. I am also grateful to my wonderful juniors **Shruti Kulshrestha, Nilay Dalvi and Rhythm Karnik** for their valuable help and for always being ready to go out and have coffee and snacks. I shall always cherish those moments with love. A special thanks to Nilay Dalvi for helping me out with late hour works and with figures for my thesis and Rhythm Karnik for proof-reading the thesis and for discussing wonderful scientific ideas, keeping my mind engaged. I extend my gratitude to all my dissertation students and interns who have been helpful with the work and blended it with their thriving scientific temperament.

Cheers to my friends. I extend my deep gratitude to **Pankti Shah & Anjali Shinde** for accompanying me, for sharing happy and sad moments as we sailed in the same boat. For being all-ears when needed and helping me out throughout the tenure. I would also like to thank **Fatima Currim, Jyoti Singh, Shatakshi Shukla and Jayvadan Vaishnav** for all the help rendered.

A very special thanks to my buddy **Aliasgar Vohra** for always being there for me. I have found a brother in a lab-mate. You are the one who has seen me cry the most and patiently listen to my ranting. I appreciate how you stayed back in lab if I was working, even when you were done for the day. For getting me food if I were occupied and couldn't go out. I could always rely on you for any work in my absence. I appreciate the team we put up while working.

I pay sincere regards to my super-seniors **Dr. Menaka Thounaojam and Dr. Ravirajsinh Jadeja** for helping me out with most vital experiments in my thesis and for

*the valuable contributions in papers. I also thank **Mr. Gowdham Manivel** and **Dr. Saumya Patel** for their help with in-silico docking studies.*

*A special thanks to my love, senior and now husband **Dr. Kapil Upadhyay** who has been with me for almost a decade now. I deeply appreciate how you have always been there for me throughout the journey. I respect and value the most how you never tried to overshadow or take any decisions for me and how you respected my individuality. It would not have been possible to accomplish such amount of work in this small and COVID times had it not been for you. You always shared and showed your mistakes, so I got chance to make my own and learn twice as much. I immensely value and cherish you for being an integral part of my Ph.D. and my life.*

*With immense gratitude and love I would like to thank my parents **Mr. Swetang Vyas** and **Mrs. Uma Vyas** for just everything. For believing in me, for letting me take all the decisions of my life, for always being there for me, for not dragging me to social gatherings, for valuing my work, for constant blessings and for making me grow as a strong independent girl. Thank you-mom for always listening to me when I was upset, for late night coffees, for making me believe in myself over and over again and for being my best-friend ever. And a special shoutout to my punch bag and a replica **Charmi Vyas**. You have been such a sweetheart and a stressbuster to me. Thank you for lightening my mood, for 2 a.m. Maggie and coffee after stressful day and for just always being there. Lots of love.*

*Last but not the least, I owe debt of gratitude to **The Maharaja Sayajirao University of Baroda** which is ceaseless companion of my higher education journey. The lesson I learned in past 10 years made me more confident and taught real world dealing. The journey I traversed had huge turmoils, but it eventually molded me into the best version*

*of myself. **The M.S. University** will always be an enduring period that will be treasured throughout my life.*

Hitarthi Vyas
