

List of Tables		
Sr.No.	Title	Pg No.
1.1	Crustacean diversity in GOKh. (IS: Isopods, AM: Amphipods, BA: Barnacle, AN: Anomuran crabs, BR: Brachyuran crabs, PS: Prawns and shrimps, LB: Lobsters, ST: Stomatopods) (Trivedi et al., 2015)	12
2.1	Species of genus <i>Ilyoplax</i>	23
2.2	Characteristics of r- and K-Selected Species	34
2.3	Month wise population density of Male-Female crabs (<i>Ilyoplax sayajiraoi</i>)	40
2.4	Correlation analysis showing monthwise population of males	43
2.5	Correlation analysis showing monthwise population of females	46
2.6	Correlation analysis showing monthwise population of ovigerous female	49
2.7	Relation between physical characteristics of sediments and species	59
3.1	Winter burrow morphology data	74
3.2	Indicates Pearson correlation between various burrow parameters for winter season in lower tidal zone (LTZ)	76
3.3	Indicates Pearson correlation between various burrow parameters for winter season in middle tidal zone (MTZ)	76
3.4	Indicates Pearson correlation between various burrow parameters for winter season in upper tidal zone (UTZ)	77
3.5	Component Matrix for winter season	79
3.6	Total Variance in winter season	80
3.7	Young's S-stress formula 1 used for winter season	83
3.8	Stress and RSQ values for winter season	83
3.9	Summer burrow morphology data	84
3.10	Indicates Pearson correlation between various burrow parameters for summer season in lower tidal zone (LTZ)	86
3.11	Indicates Pearson correlation between various burrow parameters for summer season in middle tidal zone (MTZ)	86
3.12	Indicates Pearson correlation between various burrow parameters for summer season in upper tidal zone (UTZ)	86
3.13	Component Matrix ^a for summer season	89
3.14	Total Variance in summer season	90
3.15	Young's S-stress formula 1 used for Summer season	92
3.16	Stress and RSQ values for summer season	92
3.17	Monsoon burrow morphology data	94
3.18	Indicates Pearson correlation between various burrow parameters for monsoon season in lower tidal zone (LTZ)	96
3.19	Indicates Pearson correlation between various burrow parameters for monsoon season in middle tidal zone (MTZ)	96
3.20	Indicates Pearson correlation between various burrow parameters for monsoon season in upper tidal zone (UTZ)	96
3.21	Regression analysis of burrow parameters in respective season	97
3.22	Component Matrix ^a for monsoon season	100
3.23	Young's S-stress formula 1 used for monsoon season	103
3.24	Stress and RSQ values for monsoon season	10

4.1	Correlation between different behavioural activities of crab for untreated burrows winter season	116
4.2	Component Matrix ^a for untreated burrows winter season	117
4.3	Total Variance for untreated burrows winter season	117
4.4	Correlation between different behavioural activities of crab for untreated burrows summer season	120
4.5	Component Matrix ^a for untreated burrows summer season	121
4.6	Total Variance for untreated burrows summer season	121
4.7	Correlation between different behavioural activities of crab for untreated burrows monsoon season	124
4.8	Component Matrix ^a for untreated burrows monsoon season	125
4.9	Total Variance for untreated burrows monsoon season	125
4.10	Correlation between different behavioural activities of crab for chemically treated burrows winter season	133
4.11	Component Matrix ^a for chemically treated burrows winter season	134
4.12	Total Variance for chemically treated burrows winter season	134
4.13	Correlation between different behavioural activities for chemically treated burrows summer season	137
4.14	Component Matrix ^a for chemically treated burrows summer season	138
4.15	Total Variance for chemically treated burrows summer season	138
4.16	Correlation between different behavioural activities of crab for chemically treated burrows monsoon season	141
4.17	Component Matrix ^a for chemically treated burrows monsoon season	142
4.18	Total Variance for chemically treated burrows monsoon season	142
4.19	Correlation between different behavioural activities of crab for fertilizer treated burrows winter season	147
4.20	Component Matrix ^a for fertilizer treated burrows winter season	148
4.21	Total Variance for fertilizer treated burrows winter season	148
4.22	Correlation between different behavioural activities of crab for fertilizer treated burrows winter season	150
4.23	Component Matrix ^a for fertilizer treated burrows winter season	151
4.24	Total Variance for fertilizer treated burrows winter season	151
4.25	Correlation between different behavioural activities of crab for fertilizer treated burrows summer season	154
4.26	Component Matrix ^a for fertilizer treated burrows summer season	155
4.27	Total Variance for fertilizer treated burrows summer season	155
4.28	Correlation between different behavioural activities of crab for fertilizer treated burrow monsoon season	158
4.29	Component Matrix ^a for fertilizer treated burrows monsoon season	159
4.30	Total Variance for fertilizer treated burrows monsoon season	159
