

## List of Tables

Chapters	Title	Page No.
<b>Chapter 1</b>	<b>General Introduction</b>	<b>1-42</b>
1.1	Seed mass, oil content, and protein content in <i>Jatropha curcas</i> seeds	16
1.2	Physical and Chemical properties of diesel and <i>Jatropha curcas</i> oil	18
1.3	Properties of <i>Jatropha curcas</i> oil–diesel blends	19
1.4	Percentage of Oil classes and lipid composition of <i>Jatropha curcas</i> seed oil	20
1.5	Fatty Acid composition of seed oil of <i>Jatropha curcas</i>	20
1.6	Total flowering, Seed and Oil yield of <i>Jatropha curcas</i>	26
1.7	Increase yield in Seed and Oil from <i>Jatropha</i> plantation by phytohormone treatment	26
<b>Chapter 2</b>	<b>Materials and Methods</b>	<b>43-51</b>
2.1	Groups of phytohormone treated plants	44
<b>Chapter 3</b>	<b>Studies on Flower development, Fruit and Oil yield from <i>Jatropha</i> Plantations of different regions in Gujarat</b>	<b>52-66</b>
3.1	Total number of flowers and Sex ratio observed in inflorescence of <i>Jatropha curcas</i> plantation from different regions	56
3.2	Time scale of Inflorescence development of <i>Jatropha curcas</i> plantation from different regions	58
3.3	Time scale of Fruit development of <i>Jatropha curcas</i> plantation from different regions	60
3.4	Fatty acid analysis of seed oil of <i>Jatropha curcas</i> plantation from different regions	64
<b>Chapter 4</b>	<b>Effect of exogenous application of Phytohormones on Sex alteration and Inflorescence development in <i>Jatropha curcas</i></b>	<b>67-85</b>

4.1	Soil Analysis from <i>Jatropha curcas</i> plantation region	72
4.2	Effect of GA and 2, 4-D on flower number and sex ratio in <i>Jatropha curcas</i>	73
4.3	Effect of Ethrel and GA with Silver thiosulfate on flower number and sex ratio in <i>Jatropha curcas</i>	74
4.4	Effect of growth regulators on increase female flower in <i>Jatropha curcas</i>	75
4.5	Effect of GA and 2, 4-D on time scale of inflorescence development in <i>Jatropha curcas</i>	77
4.6	Effect of Ethrel and GA with Silver thiosulfate on time scale of inflorescence development in <i>Jatropha curcas</i>	78
<b>Chapter 5</b>	<b>Effect of exogenous application of Phytohormones on seed oil yield and Fatty acid composition in <i>Jatropha curcas</i></b>	<b>86-98</b>
5.1	Effect of phytohormones on Fruit development in <i>Jatropha curcas</i>	90
5.2	Effect of GA and 2, 4-D on Fatty acid composition of Seed oil	94
5.3	Effect of GA, and Silver thiosulfate on Fatty acid composition of Seed oil	95
5.4	Effect of Ethrel on Fatty acid composition of Seed oil	96
<b>Chapter 6</b>	<b>Role of Gibberellin, 2, 4-D, Ethrel and Silverthiosulfate on endogenous levels of GA, Auxin, Ethylene and ACC in <i>Jatropha curcas</i></b>	<b>99-109</b>
6.1	Standardization of Ethylene analysis with different concentration of Ethephon by Gas chromatography	104
