

ACKNOWLEDGEMENTS

I wish to express my deep sense of gratitude to Dr. A.R. Mehta for his continuous inspiring guidance and valuable suggestions at all stages of the work. Most important of all was the fact that he was not only the source of much-needed information and guidance, but also taught me scientific approach and new scientific philosophy.

I am grateful to Dr. C.H. Pathak, Professor and Head of Botany Department for the facilities provided to me for carrying out this work. I thank Dr. N.S. Pandya, Dean, Faculty of Science for encouragement.

Thanks are due to my research colleagues, Dr. V.P. Fadia and Mr. K. Venkatasubbaiah for their help and co-operation. I wish to thank Mr. P.T. Dindorkar, Artist in the Department, for preparing the photographs.
