

LIST OF FIGURES

Figure	Page No.
1 Experimental Plan 	42
2 Influence of type of plantation on the income levels of the workers 	95
3 Distribution of haemoglobin levels of male and female workers of the three types of plantations 	121
4 Mean haemoglobin levels of male and female workers as compared with WHO standards 	124
5 Influence of literacy/educational status on the haemoglobin levels of the plantation workers ..	143
6 Influence of literacy/educational status on the Body Mass Index (BMI) of the plantation workers 	148
7 Influence of type of housing on the haemoglobin levels of the plantation workers 	150
8 Influence of type of housing on the Body Mass Index (BMI) of the plantation workers 	155
9 Influence of source of drinking water on the haemoglobin levels of the workers 	157
10 Influence of source of drinking water on the Body Mass Index (BMI) of the plantation workers 	162
11 Influence of toilet used on the haemoglobin levels of the plantation workers 	163
12 Influence of toilet used on the Body Mass Index (BMI) of the plantation workers 	168
13 Influence of monthly per capita income on the haemoglobin levels of the plantation workers ..	170
14 Influence of monthly per capita income on the Body Mass Index (BMI) of the plantation workers 	175
