• Certificate	i
• Declaration	ii
• Dedication	iii
• Acknowledgements	iv-vi
• List of Figures	vii-viii
• List of Tables	ix-x
• Abbreviations	xi-xiv
• <b>CHAPTERS</b>	
1. Introduction	
1.1 Complementary and Alternative Medicine (CAM)	1
1.2 The upsurge of CAM	4
1.3 Challenges in developing CAM as therapeutic system	5
1.4 Framework for action	8
1.5 Antioxidants in Herbals	14
1.6 Asthma	15
1.7 Cardiovascular Diseases	27
2. Literature Review	
2.1. Leonotis nepetaefolia	32
2.2. Oxalis corniculata	34
2.3. Research Envisaged	36
3. Material and Methods	
3.1 Procurement and authentication of plant material	39
3.2 Morphological evaluation	39
3.3 Determination of foreign matter	39
3.4 Microscopy study	39
3.5 Assessment of quality of plant material	39
3.6 Proximate analysis	40
3.7 Qualitative phytochemical screening of plant material	43
3.8 Determination of secondary metabolites	45
3.9 Extraction, fractionation and isolation of phytoconstituents	47

3.10 HPTLC studies	51
3.11 HPLC studies	55
3.12 Assessment of therapeutic claims	57
4. Results and Discussion	
4.1 <i>Leonotis nepetaefolia</i>	69
4.2 <i>Oxalis corniculata</i>	116
4.3 Characterization of compounds	144
5. Summary and Conclusions	150
• References	165
• Annexure-I
