

TABLES

| <u>Sr.No.</u> | <u>Details</u>                                                                                              | <u>Page</u> |
|---------------|-------------------------------------------------------------------------------------------------------------|-------------|
| 1.            | Available spectroscopic data on calcium iodide molecule. ... ..                                             | 31          |
| 2.            | Available spectroscopic data on Zinc iodide molecule. ... ..                                                | 36          |
| 3.            | Available spectroscopic data on Indium iodide molecule. ... ..                                              | 39          |
| 4.            | Band head data of the A $2\pi_{3/2}$ — X $2\Sigma^+$ system of CaI molecule. ... ..                         | 65          |
| 5.            | Band head data of the A $2\pi_{1/2}$ — X $2\Sigma^+$ system of CaI molecule. ... ..                         | 67          |
| 6.            | Band head data of the B $2\Sigma^+$ — X $2\Sigma^+$ system of CaI molecule. ... ..                          | 69          |
| 7.            | Deslandre's table for A $2\pi_{3/2}$ — X $2\Sigma^+$ system for Q heads of CaI molecule ... ..              | 71          |
| 8.            | Deslandre's table for A $2\pi_{1/2}$ — X $2\Sigma^+$ system for Q heads of CaI molecule. ... ..             | 72          |
| 9.            | Deslandre's table for B $2\Sigma^+$ — X $2\Sigma^+$ system for P <sub>1</sub> heads of CaI molecule. ... .. | 73          |
| 10.           | Deslandre's table for B $2\Sigma^+$ — X $2\Sigma^+$ system for P <sub>2</sub> heads of CaI molecule. ... .. | 74          |
| 11.           | Band head data of the C $2\pi_{1/2}$ — X $2\Sigma$ system for Q heads (isotopic) of ZnI molecule. ...       | 81          |

| <u>Sr.No.</u> | <u>Details</u>                                                                                                                                                               | <u>Page</u> |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| 12.           | Band head data of the $D \rightarrow B \ ^3\Pi_1$ system for Q heads of InI molecule. ... ..                                                                                 | 91          |
| 13.           | Deslandre's table for Q heads of $D \rightarrow B \ ^3\Pi_1$ system of InI molecule. ... ..                                                                                  | 93          |
| 14.           | Vacuum wave numbers and J assignments for rotational lines of O,O band and of A - X system of InI molecule. ... ..                                                           | 102         |
| 15.           | Combination differences $\Delta_2 F(J)$ for the upper states of O,O and O,1 bands of A - X system of InI molecule. ... ..                                                    | 108         |
| 16.           | Combination difference $\Delta_2 F(J)$ for the lower state of O,O and 1,0 bands of A - X system of InI molecule. ... ..                                                      | 113         |
| 17.           | Vacuum wave numbers and J assignments for rotational lines of O,1 band of A - X system of InI molecule. ... ..                                                               | 117         |
| 18.           | Vacuum wave numbers and J assignments for rotational lines of 1,0 band of A - X system of InI molecule. ... ..                                                               | 120         |
| 19.           | Rotational constants for 1,0; O,O and O,1 bands of $A \ ^3\Pi_0 - X \ ^1\Sigma^+$ system of InI molecule....                                                                 | 121         |
| 20.           | Graphical determination of $\epsilon_e''$ and $\Delta G_e''$ values for lower state from $R_{O,O}(J) - R_{O,1}(J) \quad V_s$<br>J (J + 1) of A - X system of InI molecule... | 126         |

| <u>Sr.No.</u> | <u>Details</u>                                                                                                                                                                     | <u>Page</u> |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| 21.           | Graphical determination of $\alpha'_e$ and $\Delta G'_{1/2}$ values for upper state from $R_{1,0}(J-1) - R_{0,0}(J-1) V_s$ . $J(J+1)$ of $\Lambda - X$ system of InI molecule. ... | 127         |
| 22.           | Molecular constants of InI obtained in the present work along with the microwave data...                                                                                           | 128         |
| 23.           | Vacuum wave numbers and their second differences $\Delta^2$ of some poorly resolved lines of O,O band of $B^3\Pi_p - X^1\Sigma^+$ system of InI molecule. ...                      | 132         |
