

List of Tables

No.	Title	Page No.
1.1	Examples of target proteins for PARylation	19
7.1	Dose dependent effect of UV-C on <i>D.discoideum</i> development	156
7.2	Synergistic development of UV-C treated GFP tagged <i>D. discoideum</i> cells with healthy cells	157
7.3	Addition of cAMP (1 and 10 μ M) resumes development of UV-C exposed <i>D. discoideum</i> cells.	159
