

List of Figures

1.	Forest Cover Status of India	11
2.	Methodology flow chart	41
3a.	Phenology of some of the forest species	55
3.	Nitrogen percentage in forest soils of study area	64
4.	EC & pH values in forest soils of study area	64
5.	Nutrient content in leaf litter	106
6.	Spectral profile of closed teak forests, closed mixed forests and open mixed forests	110
7.	Spectral profile of degraded forests and scrub	111
8.	Spectral profile of sparse tree cover and scrub with coppice forests	112
9.	Spectral profile of agriculture, acacia and eucalyptus plantation	112
10.	Spectral profile of wastelands and stony waste	113
11.	Spectral profile of waterbody, canal and river	113
