

LIST OF TABLES

<u>TABLE</u>		<u>PAGE</u>
I.1	Wind direction data (Jamnagar)	15
I.2	Wind direction data (Dwarka)	16
I.3	Wind direction data (Veraval)	17
I.4	Wind direction data (Bhavnagar)	18
I.5	Wind direction data (Surat)	19
II.1	Classification of Quaternary and Tertiary sequence of Saurashtra	35
II.2	Quaternary and Tertiary sequence of Saurashtra	36
II.3	Stratigraphy of the Cambay Basin	38
II.4	Coastal stratigraphy of the area between rivers Auranga and Par	40
IV.1	Environmental parameters of various coastal segments	86
V.1 a	Sediment characteristics of Saurashtra coast (Beach sand)	100
V.1 b	Sediment characteristics of Saurashtra coast (Tidal mud)	101
V.2 a	Sediment characteristics of Mainland coast (Beach sand)	102
V.2 b	Sediment characteristics of Mainland coast (Tidal mud)	103
VI.1	Segmentwise microfaunal assemblages- North Saurashtra coast	125
VI.2	Segmentwise microfaunal assemblages- West and South Saurashtra coast	128
VI.3	Segmentwise microfaunal assemblages- Gulf of Cambay	133

<u>TABLE</u>		<u>PAGE</u>
VI.4	Segmentwise microfaunal assemblages- Mainland Gujarat	136
VI.5	Percentage frequency of foraminifera in the beach sands of Saurashtra	137
VI.6	Percentage frequency of foraminifera in the tidal muds of Saurashtra	138
VI.7	Percentage frequency of foraminifera in the beach sands of Mainland	139
VI.8	Percentage frequency of foraminifera in the tidal muds of Mainland	141
VI.9	Size range of dominant foraminifera of N. Saurashtra	143
VI.10	Size range of dominant foraminifera of West and South Saurashtra coast	144
VI.11	Size range of dominant foraminifera Northern Mainland coast (Gulf of Cambay)	144
VI.12	Size range of dominant foraminifera central and southern Mainland coast	145
VII.1	Test characteristics and associations	242
VII.2	Generalized ecological picture	243
