

LIST OF TABLES

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
CHAPTER - IV		
4.1	Field Trial Test Data	68
4.2	Field Trial Test Data (Both in FPS and MKS units)	71
4.3	Tubing head pressure prediction by the present empirical correlation for the field trial test data	74
4.4	Tubing head pressure predictions by various existing empirical correlations for the field trial test data.	77
4.5	Percentage error shown by various existing empirical correlations for the field trial test data.	80
4.6	Statistical accuracy of empirical correlations for tubing head pressure predictions	83
4.7	Surface choke Flow rate prediction by the present theoretical model	84
4.8	Surface choke Flow rate prediction by Omana's model	87
4.9	Surface choke Flow rate prediction by Poettman & Beck's model	90
4.10	Surface choke Flow rate prediction by Ashford's model	93
4.11	Surface choke Flow rate prediction by Sachdeva's model	96
4.12	Surface choke Flow rate prediction by Perkins' model	99
4.13	Surface choke Flow rate prediction by Ashford & Pierce model	102
4.14	Statistical accuracy of theoretical models for flow rate prediction.	105
4.15	Surface choke Flow rate prediction by the present model with Ashford and Pierce data	106
4.16	Surface choke Flow rate prediction by the present theoretical model with Omana's data	107

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
CHAPTER - V		
5.1	Surface and Bottomhole choke data gathered from Field Trial Test	145
5.2	Well test and PVT. data of the test wells	146
5.3	Tubing head pressure prediction by the present empirical correlation for bottomhole choke.	147
5.4	Tubing head pressure prediction by various empirical correlations for bottomhole choke	148
5.5	Statistical accuracy of empirical correlations for bottomhole choke	149
5.6	Flow rate prediction by present theoretical model for bottomhole choke	150
5.7	Flow rate prediction by Poettman & Beck's model for bottomhole choke	151
5.8	Flow rate prediction by Ashford's model for bottomhole choke	152
5.9	Flow rate prediction by Ashford & Pierce's model for bottomhole choke	153
5.10	Flow rate prediction by Omana's model for bottomhole choke	154
5.11	Flow rate prediction by Sachdeva's model for bottomhole choke	155
5.12	Flow rate prediction by Perkins's model for bottomhole choke	156
5.13	Statistical accuracy of theoretical models for bottomhole choke	157
5.14	Surface choke test data of test well No.2	158
5.15	Well test data through 10/64" bottomhole choke (well no.2)	159
5.16	Recorded bottomhole pressure data with 10/64" bottomhole choke	160

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
5.17	Comparison of surface choke data with that bottomhole choke in terms of productivity index	161
5.18	Static bottomhole pressure data	162
5.19	Change in static bottom hole pressure per ton of oil production	163
5.20	Comparison of Energy spent in lifting unit mass of oil	164
5.21	Bottomhole choke size selection- Test no.1.	165
5.22	Bottomhole choke size selection- Test no.2.	166
5.23	Bottomhole choke size selection- Test no.3.	167
5.24	Bottomhole choke size selection- Test no.4.	168
5.25	Bottomhole choke size selection- Test no.5.	169
5.26	Bottomhole choke size selection- Test no.6.	170
5.27	Bottomhole choke size selection- Test no.7.	171
5.28	Bottomhole choke size selection- Test no.8.	172
5.29	Bottomhole choke size selection- Test no.9.	173
5.30	Bottomhole choke size selection- Test no.10.	174
5.31	Comparison of THP Prediction by choke size selection procedure for bottomhole choke	175

CHAPTER - VI

6.1	Surface choke data before Commingling production	219
6.2	Commingling production data	220

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
6.3	Comparison of surface choke data with Commingling production data	221
6.4	Commingling Choke size selection - Tubinghead pressure calculation with 6/64" upper choke with various lower choke	222
6.5	Commingling Choke size selection - Tubinghead pressure calculation with 8/64" upper choke with various lower choke	223
6.6	Commingling Choke size selection - -Tubinghead pressure calculation with 10/64" upper choke with various lower choke	224
6.7	Commingling Choke size selection - Tubinghead pressure calculation with 12/64" upper choke with various lower choke	225
6.8	Commingling Choke size selection -Tubinghead pressure calculation with 14/64" upper choke with various lower choke	226
6.9	Commingling Choke size selection - Tubinghead pressure calculation with 16/64" upper choke with various lower choke	227
6.10	Commingling Choke size selection -Tubinghead pressure calculation with 18/64" upper choke with various lower choke	228
6.11	Commingling Choke size selection -Tubinghead pressure calculation with 20/64" upper choke with various lower choke	229
6.12	Comparison of THP and flow rate Prediction by choke size selection procedure with that of measured values.	230
