

LIST OF FIGURES

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
CHAPTER - IV		
4.1	Schematic diagram of surface choke production system	54
4.2	Typical bean housing and chokes used in field trial tests	55
4.3	Field trial tests flow measurement system	56
4.4	Cross plot for Tubing head pressure (present empirical correlation)	109
4.5	Cross plot for Tubing head pressure (Gilbert correlation)	110
4.6	Cross plot for Tubing head pressure (Ros,s correlation)	111
4.7	Cross plot for Tubing head pressure (Baxendell,s correlation)	112
4.8	Cross plot for Tubing head pressure (Achong's correlation)	113
4.9	Cross plot for Tubing head pressure (Mach's correlations)	114
4.10	Cross plot for Tubing head pressure (Pilehvari's correlation)	115
4.11	Cross plot for flow rate (present theoretical model)	116
4.12	Cross plot for flow rate (Omana's model)	117
4.13	Cross plot for flow rate (Poettmann & Peck's model)	118
4.14	Cross plot for flow rate (Ashford's model)	119
4.15	Cross plot for flow rate (Sachdeva's model)	120
4.16	Cross plot for flow rate (Perkins' model)	121
4.17	Cross plot for flow rate (Ashford & Pierce's model)	122
CHAPTER - V		
5.1	Details of typical field trial setup (Bottomhole choke)	128
5.2	Cross plot for bottomhole choke tubing head pressure (Present Empirical correlation)	176

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
5.3	Cross plot for bottomhole choke tubing head pressure (Gilbert's correlation)	177
5.4	Cross plot for bottomhole choke Tubing head pressure (Ros's correlation)	178
5.5	Cross plot for bottomhole choke Tubing head pressure (Baxendell's correlations)	179
5.6	Cross plot for bottomhole choke Tubing head pressure (Achong's correlation)	180
5.7	Cross plot for bottomhole choke Tubing head pressure (Mach's correlation)	181
5.8	Cross plot for bottomhole choke Tubing head pressure (Pilehvari's correlation)	182
5.9	Cross plot for flow rate (Present theoretical model)	183
5.10	Cross plot for bottomhole choke flow rate (Poettman & Beck's model)	184
5.11	Cross plot for bottomhole choke flow rate (Ashford's model)	185
5.12	Cross plot for bottomhole choke flow rate (Ashford & Pierce's model)	186
5.13	Cross plot for bottomhole choke flow rate (Omana's model)	187
5.14	Cross plot for bottomhole choke flow rate (Sachdeva's model)	188
5.15	Cross plot for bottomhole choke flow rate (Perkins' model)	189
5.16	Figure showing flowing bottomhole pressures	138
5.17	Block diagram for bottomhole choke size selection	190
5.18	Bottomhole Choke size selection - Test 1	191

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
5.19	Bottomhole Choke size selection - Test 2	192
5.20	Bottomhole Choke size selection - Test 3	193
5.21	Bottomhole Choke size selection - Test 4	194
5.22	Bottomhole Choke size selection - Test 5	195
5.23	Bottomhole Choke size selection - Test 6	196
5.24	Bottomhole Choke size selection - Test 7	197
5.25	Bottomhole Choke size selection - Test 8	198
5.26	Bottomhole Choke size selection - Test 9	199
5.27	Bottomhole Choke size selection - Test 10	200
5.28	Cross plot for Tubing head pressure (Bottomhole choke size selection procedure)	201
CHAPTER - VI		
6.1	Three layer reservoir with cross flow	203
6.2	Two layer reservoir without cross flow	203
6.3	Modified commingling flow system	206
6.4	Mixing of two ideal gas streams	208
6.5	Commingling flow pressure elements	211
6.6	Schematic diagram of single alternate completion	214
6.7	Flow diagram for commingling flow model	231
6.8	Block diagram for resultant pressure calculation of mixing of two ideal streams	232
6.9	Commingling flow Bottomhole Choke size selection - 6/64" upper choke with various lower chokes - Test No.1	233

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
6.10	Commingling flow Bottomhole Choke size selection - 8/64" upper choke with various lower chokes - Test No.1	234
6.11	Commingling flow Bottomhole Choke size selection - 10/64" upper choke with various lower chokes - Test No.1	235
6.12	Commingling flow Bottomhole Choke size selection - 12/64" upper choke with various lower chokes - Test No.1	236
6.13	Commingling flow Bottomhole Choke size selection - 14/64" upper choke with various lower chokes - Test No.1	237
6.14	Commingling flow Bottomhole Choke size selection - 16/64" upper choke with various lower chokes - Test No.1	238
6.15	Commingling flow Bottomhole Choke size selection - 18/64" upper choke with various lower chokes - Test No.1	239
6.16	Commingling flow Bottomhole Choke size selection - 20/64" upper choke with various lower chokes - Test No.1	240
6.17	Cross plot for flow rate (Bottomhole Choke size selection for commingling flow	241
6.17	Cross plot for Tubing head pressure (Bottomhole Choke size selection for commingling flow)	242
