

-: ACKNOWLEDGEMENTS :-

I would like to express my heart-felt gratitude and indebtedness to Dr. J.R. Pandya, M.Sc., Ph.D. for suggesting the problem and for his ceaseless and valuable guidance and inspiring encouragement during the course of investigation.

My sincere thanks are also due to Prof. R.V. Joshi, M.Sc., Ph.D. (Leeds) for providing excellent laboratory facilities and his continuous interest in the work. I express my grateful thanks to Prof. A.M. Talati, Head, Applied Chemistry Department, Faculty of Technology & Engineering for providing the necessary facilities for pH-measurements and to Dr. Anil Sheth for his help in pH-measurements. I also thank Mr. Agrawal and Prof. Gadgil, Metallurgy Department, Faculty of Technology & Engineering for their sincere help in taking photomicrographs of the etched samples.

My thanks are also to my colleagues, Shri A.J. Shah, Miss. M.B. Patel, Shri S.E. Khisti for rendering all possible help and cooperation in various forms during the course of work. Finally, I am thankful to the Department of Atomic Energy, Government of India, for the award of Junior Fellowship.
