

## ACKNOWLEDGEMENTS

I bow down in the feet of Almighty God

*The journey from the day of PhD registration to this day of my PhD thesis submission has been a great time. My journey through the entire tenure has made me grownup as a person then what I was before. Though fulfilling the undertaken PhD was not easy, it was never even impossible. The tenure was all like a roller coaster ride and accomplishment of my PhD would not have been achieved without guidance and support of some individuals who have contributed and provided me with the necessary assistance in preparation and fulfilment of the study.*

*I sincerely thank to the almighty god for providing this wonderful opportunity and constantly flourishing me with inspiration and strength to successfully accomplish my research goal.*

*Firstly, I owe immense gratitude to my PhD supervisor, Prof. Neeta R. Pandya for constant support, motivation, enthusiasm, encouragement and for recognizing my abilities while further pushing them far beyond. It began with this class lectures when I formally was introduced and was taught the subject of ecology and medicinal plants by my madam and ever since then her guidance has been unending. Under her guidance I have carried out this research successfully and satisfactorily. She has been a great mentor with thorough expertise in the subject. Her knowledge and knowhow's in the field has helped me a lot throughout my PhD. Moreover she has always been my inspiration as a researcher and as a person. She is best guide I could ever expect to guide my PhD.*

*I would like to acknowledge and thank the financial assistance provided by Department of Science and Technology (India) in the form of INSPIRE fellowship.*

*I would also like to thank Prof. (Mrs.) Sandhya K. Garge (Head, Dept. of Botany) and Prof. Arun Arya (Ex-Head, Dept. of Botany) for providing various facilities during the course of my study. I am thankful to Prof. N.S.R. Krishnayya and all the teaching staff from the department for their support through all this time. My special thanks to Prof. M Daniel for building up my fundamentals in phytochemistry. I also extend my gratitude to Dr. P Nagar for providing me with lab facilities.*

*I am indebted to my friends Alka didi and Mital Patel for providing me with the medicinal plants material. I would like to thank Gagan and Prachi for their assistance in HPLC analysis.*

*I thank my lab mates Alka didi, Binal didi, Shivangi didi, Krishna didi, Dhaval bhai, Vallabhi, Manjit, Nikita, Arpita and Rashmi for making our lab a great working place and at times an enjoyable place to come and work. I also thank my department friends Bhavna didi, Bhavika didi, Ami didi, Dhara didi, Rinku didi, Poonam didi and Hiral didi for their support in one or the other way. I would like to thank my dear friends Dhruv, Sita, Trushna, Reshma Poonam, Kartik bhai, Rahul bhai, Aditya, Ronak, Pritesh and Sachi for their constant and valuable encouragement.*

*I thank Kaushik bhai, Mr. Sharmaji and Mr. Prakash bhai for their help and support. I also thank all the lab technicians, non-teaching staff members of the Dept. of Botany for their sensible help and support. I thank Mr. Sailesh bhai and his working team for taking care of my experimental setup kept in Botanical garden. I would like to thank Patil bhai for his assistance in the work related to university arboretum.*

*I am deeply indebted to the blessings, encouragement and never ending support given by my parents Ashok bhai and Sangita ben Patel, my grandparents Raman bhai and Ansuya ben Patel, my brother Kaushal, my husband Nirav and my parents in-law Suresh bhai and Indu ben Patel. Without their support I could not have accomplished my dream.*

*Finally I thank those who have touched my life by blessings and wishes during the course of my study.*

**Divya Patel**
