

## LIST OF TABLES

### “AN EMPIRICAL STUDY ON "COMPETENCY MANAGEMENT AS A TOOL OF TALENT MANAGEMENT –A CASE STUDY OF SELECTED COMPANIES IN THE GUJARAT STATE"

Table .NO.	PARTICULARS	PAGE NO.
1.1	The difference between Core Competencies vs. Workplace Competencies	11
3.1	Industry Wise Distribution and Computation of Sample Size for Calculating Total Sample Size	92
3.2	List of References of Selected Criteria Used in Drafting of Structured Questionnaire	96-98
3.3	Reliability of Opinion of Selected Employees for the Study	98
3.4	Comparison of Mean Scores of Experience/Satisfaction from Selected Employees from four Key sector of Gujarat's Manufacturing Industry.	99
3.5	Kolmogorov-Smirnov Test of Normality	100
3.6	Descriptive Values for Normality Test of Employees	101
4.1	Industry & Company-wise distribution of Employees	115
4.2	Profile of Selected Employees (As Per Age Groups)	116
4.3	Profile of Selected Employees (Based on Gender)	118
4.4	Profile of Selected Employees (As Per Designation)	119
4.5	Profile of Selected Employees ( As per Department )	121
4.6	Profile of Selected Employees Education Qualification	123
4.7	Profile of Selected Employees Experience	124
4.8	Responses towards Awareness of Competency	126
4.9	Identification of Competencies in the Companies	127
4.10	Selected Employees' responses towards various Managerial Competencies in the Organisation	129
4.11	Selected Employees' responses towards various Behavioural Competencies in the Company	133
4.12	Selected Employees' responses towards Technical Competencies in the Company	136
4.13	Selected Employees' responses towards various Competency-based HR functions in the Company	143
4.14	Selected Employees' responses towards various Talent Acquisition Practices in the Company	155
4.15	Selected Employees' responses towards various Talent Development Practices in the Company	164
4.16	Selected Employees' Responses towards various Talent Retention Practices in the Company	172
4.17	Selected Employees' responses towards various Competency-based applications in the Company	179
5.1	Findings of Correlation Between Competency-based HR Functions & Competency of Selected Employees of four key sectors of the	194

	manufacturing industry of Gujarat State	
5.2	Findings of Correlation Between Competency-based HR Functions & various Competency Sets of Selected Employees of four key sectors of the manufacturing industry of Gujarat State	196
5.3	Findings of Correlation Between Talent Acquisition, Talent Development, Talent Retention, Talent Management & various Competency Sets of Selected Employees from four key sectors of the manufacturing industry of Gujarat State	201
5.4	Findings of Correlation Between Talent Acquisition, Talent Development, Talent Retention, Talent Management & various Competency Based HR Functions of Selected Employees from four key sectors of the manufacturing industry of Gujarat State	205
5.5	Findings of Correlation Between Talent Acquisitions & Talent Management of Selected Employees from four key sectors of the manufacturing industry of Gujarat	210
5.6	Findings of Correlation Between Talent Development & Talent Management of Selected Employees from four key sectors of the manufacturing industry of Gujarat	212
5.7	Findings of Correlation Between Talent retention & Talent Management of Selected Employees from four key sectors of the manufacturing industry of Gujarat	214
5.8	Statements Showing Non Significant Association of the Age of Selected Employees with Competency, Competency-based HR & Talent Management practices in the Organisation	216
5.9	Statements Showing Significant Association of the Age of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	217
5.10	Statements Showing effect size measurement of association of the Age of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	218
5.11	Statements Showing Non Significant Association of the Gender of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	218
5.12	Statements Showing Non-Significant Association of the Level of Designation of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	220
5.13	Statements Showing Significant Association of the Level of Designation of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	222
5.14	Statements Showing effect size measurement of association of the Level of Designation of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	222
5.15	Statements Showing Non Significant Association of the Qualification of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	223

5.16	Statements Showing Significant Association of the Qualification of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	223
5.17	Statements Showing effect size measurement of association of the Qualification of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	225
5.18	Statements Showing Non Significant Association of the Experience of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	227
5.19	Statements Showing Significant Association of the Experience of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	228
5.20	Statements Showing effect size measurement of association of the Experience of Selected Employees with Competency, Competency based HR & Talent Management practices in the organisation	229
5.21	Table showing Non Significant Association with the Awareness of competency & Background variables of Selected Employees	230
5.22	Table showing Significant Association with the Awareness of competency & Background variables of Selected Employees	230
5.23	Table Showing effect size measurement with the association of the Awareness of competency & Background variables of Selected Employees	230
5.24	Results of Independent Samples Kruskal-Wallis Test	237
5.25.	Designation-wise Differences in the responses towards Total Competencies (managerial, Technical & behavioural Competencies) of Employees from four key Sectors of the manufacturing industry of Gujarat	238
5.26	Designation-wise Differences in the responses for Competency Based HR Functions of Employees from four key Sectors of the manufacturing industry of Gujarat	239
5.27	Designation-wise Differences in the responses for Talent Acquisition of Employees from four key Sectors of the manufacturing industry of Gujarat	240
5.28	Designation-wise Differences in the responses for Talent retention of Employees from four key Sectors of the manufacturing industry of Gujarat	241
5.29	Designation-wise Differences in the responses for Talent Management practices of Employees from four key Sectors of the manufacturing industry of Gujarat	242
5.30	Results of Independent Samples Kruskal-Wallis Test for Industry wise distribution	243
5.31	Industry-wise Differences in the responses for Talent Acquisition of Employees from four key Sectors of the manufacturing industry of Gujarat	244
5.32	Industry-wise Differences in the responses for Talent Retention of Employees from four key Sectors of the manufacturing industry of	245

	Gujarat	
5.33	Industry-wise Differences in the responses for Talent Management practices of Employees from four key Sectors of the manufacturing industry of Gujarat	246
5.34	Findings of Reflective indicator loadings - Outer Loading Matrix of selected employees from four key sectors of the manufacturing industry in Gujarat.	250
5.35	Findings of Construct reliability & validity of selected employees from four key sectors of the manufacturing industry in Gujarat	252
5.36	Findings of Fornell-Larcker Test of Discriminant Validity	253
5.37	Findings of Discriminant Validity of the Selected Constructs through Cross Loading	254
5.38	Findings of Discriminant Validity of the Selected Constructs through Cross Loading	255
5.39	Findings of Full collinearity Statistics (VIF) With Random Variable	257
5.40	Findings of R-square & R-square adjusted	258
5.41	Findings of F- Square	259
5.42	Findings of Q <sup>2</sup> predict	260
5.43	Findings of Regression and Hypotheses Testing	261
5.44	Mediation Analysis- Total Direct Effect result of Competency, Competency based HR functions & Talent Management	262
5.45	Specific Indirect Effects	262
5.36	Findings of Importance Performance MAP Analysis (IPMA)	263
6.1	A Brief Factual Profile of the Research Study (A)	272
6.2	A Brief Factual Profile of the Research Study (B)	273
6.3	Kolmogorov-Smirnov Test of Normality	275
6.4	Descriptive Values for Normality Test of employees	277
6.5	Reliability of Opinion of Selected employees for the Study	278
6.6	Validity Assessment Test of the Structured Non-Disguised Questionnaire	279
6.7	Profile of Selected Employees	280
6.8	Findings of Correlation Between overall Communication skill, Competency & overall Competency Based HR Functions of Selected Employees from four key sectors of the manufacturing industry of Gujarat State	287
6.9	Overall Findings of Correlation Between Talent Acquisitions, Talent Development, Talent Retention & Talent Management of Selected Employees from four key sectors of the manufacturing industry of Gujarat	289
6.10	Statements Showing Significant & Non-Significant Association of the demographic profile of Selected Employees with Competency, Competency-based HR & Talent Management practices in the organisation	290
6.11	Designation-wise Differences in the responses towards Total	295

	Competencies (managerial, Technical & behavioural Competencies), Competency-based HR, Talent Acquisition, talent Development & talent Retention of Employees from four key Sectors of the manufacturing industry of Gujarat	
6.12	Industry-wise Differences in the responses for Talent Acquisition & Talent Retention of Employees from four key Sectors of the manufacturing industry of Gujarat <sup>2</sup>	297
6.13	Findings of Regression and Hypotheses Testing	299
6.14	Findings of Q <sup>2</sup> predict	300
6.15	Mediation Analysis- Total Direct Effect result of Competency, Competency-based HR functions & Talent Management	303
6.16	Specific Indirect Effects	304
6.17	Findings of Importance Performance MAP Analysis (IPMA)	305
6.18	Findings of Reflective indicator loadings - Outer Loading Matrix of selected employees from four key sectors of the manufacturing industry in Gujarat	309
6.19	Findings of Correlation Between Communication Competency set, Overall Competency & talent Management practices	309
6.20	Findings of Regression and Hypotheses Testing	309
6.21	Findings of Correlation Between Overall Competency-Based HR Functions & talent management of Selected Employees from four key sectors of the manufacturing industry of Gujarat State	310
6.22	Total Direct Effect Result of Competency-based HR Functions & Talent Management	310
6.23	Findings of Regression and Hypotheses Testing	310
6.24	Findings of Importance Performance MAP Analysis (IPMA)	311
6.25	Findings of hypothesis testing through correlation analysis of Competency-based HR Functions & various Competency Sets of Selected Employees of four key sectors of the manufacturing industry of Gujarat State	312
6.26	Findings of hypothesis testing through Correlation Between Talent Acquisition, Talent Development, Talent Retention, Talent Management & various Competency Sets of Selected Employees from four key sectors of the manufacturing industry of Gujarat State	314
6.27	Findings of Regression and Hypotheses Testing	315
6.28	Findings of Specific Indirect Effects	315
6.29	Findings of hypothesis testing through Chi Square analysis between selected Employees' demographic variables, viz., age group, gender, Designation; Gender; Experience, and Educational Qualifications vis-à-vis their awareness of Competency	316
6.30	Findings of hypothesis testing through Chi Square analysis between selected Employees' demographic variables, viz., age group, gender, Designation; Gender; Experience, and Educational Qualifications vis-à-vis their Implementation of Competencies in the selected four key sector of Gujarat's Manufacturing Industry	317
6.31	Findings of hypothesis testing through Chi Square analysis between	319

	selected Employees' demographic variables, viz., age group, gender, Designation; Gender; Experience, and Educational Qualifications vis-à-vis their Implementation of Competency based HR Functions in the selected four key sector of Gujarat's Manufacturing Industry	
6.32	Findings of hypothesis testing through Chi Square analysis between selected Employees' demographic variables, viz., age group, gender, Designation; Gender; Experience, and Educational Qualifications vis-à-vis their Implementation of Competency based HR Functions in the selected four key sector of Gujarat's Manufacturing Industry	320
