

## Table of Contents

### ACKNOWLEDGEMENTS

<b>1. General Introduction</b>	<b>1-20</b>
<b>2. Materials and Methods</b>	<b>21-32</b>
<b>3. <i>Fumaria parviflora</i> and its substitutes/adulterants</b>	
a. <i>Fumaria parviflora</i>	33-44
b. <i>Justicia procumbens</i>	45-56
c. <i>Oldenlandia corymbosa</i>	57-68
d. <i>Peristrophe bicalyculata</i>	69-80
e. <i>Polycarpea corymbosa</i>	81-92
f. <i>Rungia repens</i>	93-104
g. HPTLC fingerprinting and Physico-chemical analysis of <i>Fumaria parviflora</i> and its substitutes/adulterants	105-110
<b>4. <i>Bergenia ligulata</i> and its substitutes/adulterants</b>	
a. <i>Bergenia ligulata</i>	111-118
b. <i>Aerua lanata</i>	119-127
c. <i>Ammannia baccifera</i>	128-135
d. <i>Celosia argentea</i>	136-143
e. <i>Coleus amboinicus</i>	144-151
f. <i>Glossocardia linearifolia</i>	152-158
g. HPTLC fingerprinting and Physico-chemical analysis of <i>Bergenia ligulata</i> and its substitutes/adulterants	159-162
<b>5. <i>Glycyrrhiza glabra</i> and its substitutes/adulterants</b>	
a. <i>Glycyrrhiza glabra</i>	163-170
b. <i>Abrus precatorius</i>	171-178
c. <i>Alyscicarpus longifolius</i>	179-185
d. <i>Maerua arenaria</i>	186-192
e. <i>Taverniera cuneifolia</i>	193-200

<i>f. HPTLC fingerprinting and Physico-chemical analysis of <i>Glycyrrhiza glabra</i> and its substitutes/adulterants</i>	<b>201-207</b>
<b>6. <i>Polygala senega</i> and its substitutes/adulterants</b>	
<i>a. <i>Polygala senega</i></i>	<b>208-214</b>
<i>b. <i>Acalypha indica</i></i>	<b>215-222</b>
<i>c. <i>Adhatoda vasica</i></i>	<b>223-230</b>
<i>d. <i>Polygala chinensis</i></i>	<b>231-237</b>
<i>e. <i>Xeromphis spinosa</i></i>	<b>238-245</b>
<i>f. HPTLC fingerprinting and Physico-chemical analysis of <i>Polygala senega</i> and its substitutes/adulterants</i>	<b>246-251</b>
<b>7. <i>Saraca indica</i> and its substitutes/adulterants</b>	
<i>a. <i>Saraca indica</i></i>	<b>252-258</b>
<i>b. <i>Bauhinia variegata</i></i>	<b>259-265</b>
<i>c. <i>Bombax ceiba</i></i>	<b>266-272</b>
<i>d. <i>Polyalthia longifolia</i></i>	<b>273-279</b>
<i>e. <i>Shorea robusta</i></i>	<b>280-286</b>
<i>f. <i>Trema orientalis</i></i>	<b>287-293</b>
<i>g. HPTLC fingerprinting and Physico-chemical analysis of <i>Saraca indica</i> and its substitutes/adulterants</i>	<b>294-300</b>
<b>8. General discussion</b>	<b>301-310</b>
<b>9. Summary and Highlights</b>	<b>311-316</b>
<b>References</b>	<b>317-339</b>
<b>Appendix</b>
