

## List of Tables

Sr. No	Topic	Page No.
1.	Forest area under different rounds under the Halol Range	10
2.	List of Important Trees species	11
3.	List of Important Shrubs and Herb species	12
4.	List of Important Climbers	13
5.	List of Grass species	13
6.	Criteria & Indicators under different frameworks with their respective countries	18
7.	Criteria and indicators of Bhopal- India Process	19
8.	Assessment of different forest parameters using remote sensing technology by different research workers	29
9.	Forest cover Mapping over the years by FSI	30
10.	Soil characteristics of the district	42
11.	Forest area under different rounds under the Halol Range	43
12.	Key for visual interpretation of different land use classes	57
13.	Selected C&I of Bhopal-India Process used for Ecologically sustainable development plan:	62
14.	Criteria considered for generation of ecologically sustainable development plan for Champaner	63
15.	Total length of different State highways passing through Halol Taluka	68
16.	Available basic amenities of the villages of Halol Taluka	75
17.	Number of Genera under different families	89
18.	List of Plant species encountered during Field visits	90
19.	IVI of dominant tree species at different sites	94
20.	Status of Total Basal area, diversity and biomass of tree layer	97
21.	Status of diversity indices of Understorey	98
22.	Area change in each land use classes	104
23.	Forest Cover Density of Pavagadh Forest	105
24.	Areas under different suitability categories	108
25.	Land use status of ESA sites in the year 2007 and 2012	110
26.	Identified areas under different categories of sustainable development	115
27.	Land use change of each plot with their sustainability status	116
28.	Proposed Activity Planning for all Identified sites regarding ESD	117
