Title	Page
Calibration curve for total phenolic and flavonoid content by Folin Ciocalteu Method (A), total flavonoids content by Aluminum chloride method (B) and DNPH method (C)	No. 57
Calibration curve for Kaempferol	113
Calibration curve for Quercetin	115
Calibration curve for Gallic acid	117
Effect of Aqueous and Methanol extracts of <i>P. integerrima</i> on WBC and neutrophils in <i>E. coli</i> induced abdominal sepsis in mice	124
Effect of fractions of Methanol extract of <i>P. integerrima</i> on WBC and Neutrophils in <i>E. coli</i> induced abdominal sepsis in mice	126
Effect of fractions of Aqueous extract of P. integerrima on WBC	127
Effect of Aqueous and Methanol extracts of <i>H. spicatum</i> in WBC	128
Effect of fractions of Methanol extracts of H. spicatum in E. coli	129
Effect of Aqueous and Methanol extracts of P. integerrima on	131
Effect of fractions of Methanol extract of P. integerrima on	133
Effect of fractions of Aqueous extract of P. integerrima on	134
Effect of Aqueous and Methanol extracts of H. spicatum on	135
Effect of fractions of Methanol extracts of H. spicatum on	136
Effect of Aqueous and Methanol extracts of <i>P. integerrima</i> on hematological parameters after 15 days and on 26 th day of treatment with extracts in cyclophosphamide induced	139
Effect of fraction of Methanol extracts of <i>P. integerrima</i> on WBC count after 15 days and 26 days of treatment in cyclophosphamide	141
Effect of fractions of Aqueous extracts of <i>P. integerrima</i> on WBC count after 15 days of treatment with extracts and on 26 th day in	143
Effect of Aqueous and Methanol extracts of <i>H. spicatum</i> on WBC count after 15 days and on 26 th day of treatment with extracts in	145
Effect of fractions of Methanol extracts of <i>H. Spicatum</i> on WBC after 15 th day and 26 th day of treatment with extracts in	147
Anoxia stress tolerance test in Aqueous and Methanol extracts of <i>P. integerrima</i>	148
	Calibration curve for total phenolic and flavonoid content by Folin Ciocalteu Method (A), total flavonoids content by Aluminum chloride method (B) and DNPH method (C) Calibration curve for Kaempferol Calibration curve for Queretin Calibration curve for Gallic acid Effect of Aqueous and Methanol extracts of <i>P. integerrima</i> on WBC and neutrophils in <i>E. coli</i> induced abdominal sepsis in mice Effect of fractions of Methanol extract of <i>P. integerrima</i> on WBC and Neutrophils in <i>E. coli</i> induced abdominal sepsis in mice Effect of fractions of Aqueous extract of <i>P. integerrima</i> on WBC and Neutrophils in <i>E. coli</i> induced abdominal sepsis in mice Effect of fractions and Methanol extracts of <i>H. spicatum</i> in WBC and Neutrophils <i>E. coli</i> induced abdominal sepsis in mice Effect of Aqueous and Methanol extracts of <i>H. spicatum</i> in WBC and Neutrophils <i>E. coli</i> induced abdominal sepsis in mice Effect of fractions of Methanol extracts of <i>P. integerrima</i> on Phagocytic index in mice Effect of fractions of Methanol extracts of <i>P. integerrima</i> on Phagocytic index in mice Effect of fractions of Aqueous extract of <i>P. integerrima</i> on Phagocytic index in mice Effect of fractions of Methanol extracts of <i>H. spicatum</i> on Phagocytic index in mice Effect of fractions of Methanol extracts of <i>H. spicatum</i> on Phagocytic index in mice Effect of Aqueous and Methanol extracts of <i>H. spicatum</i> on Phagocytic index in mice Effect of Aqueous and Methanol extracts of <i>P. integerrima</i> on Phagocytic index in mice Effect of fractions of Methanol extracts of <i>P. integerrima</i> on Phagocytic index in mice Effect of fractions of Methanol extracts of <i>P. integerrima</i> on Phagocytic index in mice Effect of fractions of Methanol extracts of <i>P. integerrima</i> on Nematological parameters after 15 days and on 26 th day of treatment with extracts in cyclophosphamide induced myelosuppression in mice Effect of fractions of Aqueous extracts of <i>P. integerrima</i> on WBC count after 15 days of treatment with extracts and on 26 th day in cyclophosphamide induce

21	Anoxia stress tolerance test in fractions of Methanol extracts of <i>P</i> . <i>integerrima</i>	149
22	Anoxia stress tolerance test in fractions of Aqueous extracts of <i>P</i> . <i>integerrima</i>	150
23	Anoxia stress tolerance test in Aqueous and Methanol extracts of	151
24	<i>H. spicatum</i> Anoxia stress tolerance test in fractions of Methanol extracts of <i>H</i> .	152
25	<i>spicatum</i> Effect of Aqueous and Methanol extracts of <i>P. integerrima</i>	156
,	on stress mediated changes in biochemical parameters in rats	
26	Effect of Aqueous and Methanol extracts of <i>P_i</i> integerrima on stress mediated changes on organ weight	157
27	Effect of Aqueous and Methanol extracts of P. integerrima	159
28	on stress mediated changes on RBC and WBC Effect of Aqueous and Methanol extracts of <i>P. integerrima</i>	160
29	on stress mediated changes on DLC Effect of fractions of Methanol extract of <i>P. integerrima</i> on	162
27	stress mediated changes in biochemical parameters in rats	102
30	Effect of fractions of Methanol extract of <i>P. integerrima</i> on stress mediated changes on organ wt/100 g of body weight	163
31	Effect of fractions of Methanol extract of P. integerrima on	165
32	blood count Effect of fractions of Methanol extract of <i>P. integerrima</i> on	166
33	DLC Effect of fractions of Aqueous extract of <i>P. integerrima</i>	168
	on stress mediated changes in biochemical parameters in rats.	
34	Effect of fractions of Aqueous extract on stress mediated changes on organs weight	169
35	Effect of fractions of Aqueous extract of <i>P. integerrima</i> on stress mediated changes on blood count (RBC and WBC)	171
36	Effect of fractions of Aqueous extract on stress mediated changes on DLC	172
37	Effect of Aqueous and Methanol extracts of <i>H. spicatum</i>	174
38	on stress mediated changes in rats Effect of Aqueous and Methanol extracts of <i>H. spicatum</i>	175
39	on stress mediated changes on organ weight Effect of Aqueous and Methanol extracts of <i>H. spicatum</i>	177
	on stress mediated changes on blood cell count (RBC and WBC)	1,,
40	Effect of Aqueous and Methanol extracts of <i>H. spicatum</i>	178
41	on stress mediated changes on DLC Effect of fractions of Methanol extract of <i>H. spicatum</i> on	180
	stress mediated changes in biochemical parameters in rats	

- 42 Effect of fractions of Methanol extract of *H. spicatum* on 181 stress mediated changes on organ weight
- 43 Effect of fractions of Methanol extract of *H. spicatum* on 183 stress mediated changes on blood count (RBC and WBC)
- 44 Effect of fractions of Methanol extracts of *H. spicatum* on 184 stress mediated changes on DLC
- 45 Effect of fractions of *P. integerrima* and *H. spicatum* against 188 paracetamol induced toxicity in rats
- 46 Effect of isolated compounds from *P. integerrima* and *H. spicatum* 188 against paracetamol induced toxicity in rats
