

## C O N T E N T S

CHAPTER		PAGE
	INTRODUCTION	1
I	Seasonal Histomorphological alterations in the gonads, adrenals and thyroid in normal and pinealectomised domestic pigeons, <u>Columba livia</u>	13
II	Seasonal alterations in the weight of pancreas, spleen and uropygium in normal and pinealectomised domestic pigeons, <u>Columba livia</u>	40
III	Seasonal alterations in carbohydrate metabolism as revealed by tissue glycogen contents and blood glucose levels of normal and pinealectomised domestic pigeons, <u>Columba livia</u>	46
IV	Seasonal alterations in the Ascorbic acid content of liver, muscle, and gonad in normal and pinealectomised domestic pigeons, <u>Columba livia</u>	55
V	Seasonal alterations in the various lipid fractions of gonad in normal and pinealectomised domestic pigeons, <u>Columba livia</u>	62
VI	Seasonal alterations in the activity of phosphomonoesterases and protein content in the gonads of normal and pinealectomised domestic pigeons, <u>Columba livia</u>	71
VII	Seasonal alterations in sodium and potassium ions and water content in the gonads of normal and pinealectomised domestic pigeons, <u>Columba livia</u>	79

CHAPTER		PAGE
VIII	Seasonal histochemical alterations in lipids and steroid dehydrogenases in the gonads of normal and pinealectomised domestic pigeons, <u>Columba livia</u>	86
IX	Seasonal alterations in glucose tolerance and insulin response of normal, sham operated and pinealectomised wild pigeons, <u>Columba livia</u>	109
X	Seasonal alterations in glucagon and adrenalin responses in normal and pinealectomised wild pigeons, <u>Columba livia</u>	119
XI	<u>In vitro</u> studies on the influence of Insulin, Acetylcholine, Glucagon and Adrenalin on transport of Glucose, and Glycogen levels in liver and muscle slices of normal and pinealectomised wild pigeons, <u>Columba livia</u>	130
	SUMMARY	141
	GENERAL CONSIDERATION	149
	BIBLIOGRAPHY	168
