1. CHAPTER 1. INTRODUCTION.....	1 -6
2. CHAPTER 2. AIM & OBJECTIVES.....	7-8
3. CHAPTER 3. REVIEW OF LITERATURE.....	9- 86
3.1 Gross anatomy	9
3.1.1 Branches of anterior division	12
3.1.2 Branches of posterior division:	32
3.2 Embryological background	37
3.3 History of classification	40
3.4 Clinical significance	67
3.5 Related studies on origin, morphometry, branching pattern of internal iliac artery	70
3.6 Anatomical variations in pelvic vasculature	76
3.7 Studies on origin of obturator artery	78
3.8 Studies on origin of iliolumbar artery	84
4. CHAPTER 4. MATERIALS & METHOD.....	87-96
4.1 Data collection procedure:	87
4.1.1 Study design	87
4.1.2 Study material	87
4.1.3 Inclusion criteria	87
4.1.4 Exclusion criteria	87

4.1.5	Sample size	87
4.1.6	Ethical approval	88
4.2	Data collection methodology:-	88
4.2.1	Materials	88
4.2.2	Methods	89
4.3	Data analysis	96
5.	CHAPTER 5. OBSERVATION & RESULT.....	97-131
5.1	Vertebral level of origin of internal iliac artery	98
5.2	Distance of origin of the internal iliac artery to the midsagittal plane	100
5.3	Relation of internal iliac artery with sacroiliac joint	103
5.4	Length of internal iliac artery	104
5.5	Diameter of internal iliac artery	106
5.6	Termination patterns of internal iliac artery	108
5.7	Level of division of internal iliac artery in respect to Greater sciatic foramen	111
5.8	Type of branching pattern of internal iliac artery according to Adachi's classification	113
5.9	Origin of Obturator artery	117
5.10	Origin of Inferior gluteal artery	121
5.11	Origin of Iliolumbar artery	123
	Number of Iliolumbar arteries present in the hemi pelvis	125
5.12	Origin of Internal pudendal artery	127
5.13	Origin of Superior vesical artery	128
	Number of Superior vesical arteries	129
5.14	Origin of Middle rectal artery	131
6.	CHAPTER 6. DISCUSSION.....	132-163
6.1	Origin of internal iliac artery	132
6.2	Morphometry of internal iliac artery	137
6.3	Termination of internal iliac artery	145
6.4	Type of branching pattern of internal iliac artery according to Adachi's classification	150
6.5	Obturator artery	154

6.6	Inferior gluteal artery	158
6.7	Iliolumbar artery	159
6.8	Superior vesical artery	162
7.	CHAPTER 7. SUMMARY & CONCLUSION.....	164-167
8.	CHAPTER 8. REFERENCES.....	168-176
