

ACKNOWLEDGMENT

Remembering the kind grace of God, I avail an opportunity to express my gratitude to all those who accompanied and supported me throughout the course of this work.

First and foremost, I would like to express my deep sense of gratitude and thanks to my supervisor Respected **Dr. Sanjeev Kumar**, Associate Professor, Department of Applied Chemistry for his auspicious and priceless guidance with fruitful suggestions throughout the entire journey. His immense knowledge, interest in the subject proved to be a major contribution to this work and helped me a lot in writing my thesis. Under his supervision, I really felt freedom and curiosity of learning new things and generating ideas. He has been a living role model to me, taking up new challenges every day, tackling them with all his grit and determination and always thriving to come out victorious. I could not have imagined having a better advisor for my Ph.D.

I would like to thank Professor P. T. Deota, In-charge Head, Department of Applied Chemistry for his kind support and encouragement. I am highly grateful and deeply obliged to Professor R. C. Tandel, former Head, Department of Applied Chemistry, for his constant encouragement and everlasting moral support.

I am thankful to Education Department, Government of Gujarat, India, for the SHODH-Scheme of Developing High quality research fellowship for financial support.

I am grateful to all teachers and professors for their support and kind suggestion throughout my journey. I am also thankful to all non-teaching staff of the Department of Applied Chemistry for their kind support.

I thank my seniors, Dr. Sneha Singh, Dr. Kushan Parikh, Dr. Sanjay Kumar Yadav and Dr. Arti Bhadoria for the stimulating discussions and for their continuous support during the entire journey of Ph.D.

I also convey my sincere thanks to all my Ph.D. Colleagues, past and present friends for their help and support during my long journey.

A warm word my colleague and friend Mr. Hemil Patel, that always managed to make me feel special and with whom I had best tea breaks in my life.

I am also thankful to Mr. Pravin Patil, Faculty of Pharmacy, be possible to understand biological study.

I am deeply grateful to research colleague Mr. Meet Thakar, Mrs. Bhavita Joshi, Ms. Urvi Lad and Mr. Srujal Sonera for their help, fruitful discussion and support during my Ph.D. work.

I would also extend my thanks my hostel friends Mr. Jignesh Gamit, Mr. Dhaval Chauhan, Mr. Jay Parsaniya, Mr. Sanjay Bambhaniya, Mr. Parth Soni and Mr. Parth Patel for making my hostel life memorable and for their support.

Finally, and most importantly, with my deep sense of love, I owe my best regards to my beloved mom; Mrs. Rakshaben, papa; Mr. Jayantibhai and my sister; Mrs Shivangini, Jiju; Mr. Darshan Patel and his family for their endless love, constant inspiration and powerful backbone with lots of strength, which gives me an opportunity to achieve my vision and goal. I am also grateful to all my relatives and cousins for their constant encouragement and their support me in completion of this thesis.
