

Acknowledgement

It is really very hard job for me to express my feelings towards the hearty help, encouragement to some persons whose contribution in this thesis work will be remembered for all the years come by. I wish to convey my special thanks to all of them for taking their valuable time to support me and my work.

Apart from the grace of almighty, many people have been profusely generous and helpful to me in the course of my research work. It gives me great pleasure to acknowledge my indebtedness and deep sense of gratitude to my thesis supervisor, Prof. N L Singh, for his valuable guidance, admirable patience and constant inspiration to me during my research work. Especially his encouragement and constructive suggestions have provided me an insight into the intricacies of experimentations involved in this work.

I express my indebtedness to Prof. C F Desai, Head, Department of Physics, The M.S. University of Baroda and, Prof. D R S Somayajullu (former Head), for providing excellent facilities during the course of these investigations.
